## WILSON'S CAMPAIGN MANAGERS PREPARE FOR RECOUNTS, POSSIBLY CONTESTS

Wilson Can Win With Either California or Minnesota, Providing He Gets in Addition North Dakota, New Mexico or New Hampshire.

NEW YORK, Nov. 9.—The election has passed into the afternoon of the second day of uncertainty with President Wilson and Charles Evans Hughes both anxiously awaiting the count in a few Western states—the pivotal ones being California with 13 electoral votes and Minnesota with 12, New Mexico with 3 and North Dakota with 3. In the last named State, which the President is leading by 700, the counties are so favorable to him that the State might be considered in his column.

Although still so close that the result could not be regarded as assured, indications of returns seemed to dispose of previously doubtful states by placing West Virginia's eight votes in the Hughes column and giving the four votes of Idaho and seven from Washington to President Wilson. A new factor in the situation came this morning when a revision of returns gave Wilson a slight lead in New Hampshire and put that State in the doubtful list. The Hughes total thus became 369 and the Wilson total 351, with 37 doubtful.

The situation appears to be as follows: President Wilson can win with either California or Minnesota, providing, in addition, he gets either North Dakota, New Mexico or New Hampshire.

Hughes, to win, must have both California and Minnesota, or either one, and, in addition, North Dakota, New Mexico and New Hampshire.

Both Republican and Democratic headquarters claimed the election today, and it was evident that plans were being made to demand recounts and in some cases to carry the contest into the courts.

The latest returns from Washington early today apparently carried that State into the Democratic column. President Wilson had a lead of more than 10,000 votes on the latest figures, with about 80 districts missing. Idaho was taken from the doubtful column at an early hour and given to President Wilson, who had a lead of more than 13,000 votes. Hughes has a lead of more than 2000 votes on the returns early today from West Virginia, with only about 300 districts unreported.

Numerous conferences were held at both headquarters and there were confirmed reports that Chairman William R. Wilcox of the Republican National Committee, after talking over the situation with the Hughes leaders, had advised National Committees in certain states to engage counsel in event that recount proceedings might be instituted. It was commonly reported that recount proceedings would be begun in all doubtful states.

Chairman Vance McCormick of the Democratic National Committee, following his order to the chairmen in the various doubtful states to guard the ballot boxes and protect the count, engaged special counsel to assist the National Committee in any legal steps it might be desired to undertake. Chairman McCormick did not make any charges of fraud, but said he desired to be in a position to take any legal action that might be necessary. "We only ask what is fair," said Wilcox. "and we only want what we are entitled to. That we propose to have."

It is within the range of possibilities that the votes of national guardsmen on border duty might turn some of the doubtful states from one column to another.

Henry Morgenthau, in charge of Democratic headquarters, this morning, in the absence of Chairman McCormick, said that a recount would be demanded of the vote in New Hampshire. This, he said, would be done in spite of the figures received this morning showing that Wilson had a lead of 500 votes and that in view of the complex situation in that State a recount in any event would be necessary. Instructions to the Democratic Committee in New Hampshire to demand the recount had already gone forward, he said.

Chairman McCormick reiterated emphatically his claim of yesterday that President Wilson would be re-elected with 53 electoral votes. McCormick claimed North Dakota, California, New Mexico and New Hampshire and insisted the Democrats had a good chance to win Minnesota. Republican Chairman Wilcox said he stood by his statement of last night that Hughes would get at least 20 electoral votes.

## GARDNER SEEMS TO HAVE DEFEATED LAMM BY 3000

Seven Republican Counties and Several Democratic Are Yet to Be Heard From.

REED IS 25,000 IN THE LEAD

All of Democratic State Ticket but John P. Gordon Is Elected.

Additional Missouri returns this morning caused a revision of estimates on the plurality indicated for Frederick D. Gardner, Democratic candidate for Governor. These returns, with consideration given to the counties which have not been heard from, indicate that Gardner will have few if any more than 3000 over Lamm when all the votes are in. At noon Gardner led Lamm by 492, not including any returns from seven counties which ordinarily give good-sized Republican majorities. There also were several Democratic counties out. Figured on a basis of what these missing counties and precincts usually do in an election, Lamm can expect to gain on Gardner about 1000 votes. If he does this Gardner's plurality would be around 3000, instead of 7000 as estimated on earlier reports. It is estimated that about 2000 votes are yet to be reported.

The returns indicate that President Wilson has carried the State with a plurality in excess of 30,000, and that Senator Reed has carried it over Walter S. Dickey with a plurality in excess of 25,000.

In 276 precincts the vote for Governor is: Gardner, 34,682; Lamm, 32,682. In 2912 precincts the vote for President is: Wilson, 23,338; Hughes, 23,889. In 2310 precincts the vote for United States Senator is: Reed, 34,287; Dickey, 32,475.

Returns on minor State offices indicate the election of all Democratic candidates except Auditor John P. Gordon, a candidate for re-election. Gordon seems to have been decisively defeated. He lost St. Louis by 33,241, and was scratched in many other parts of the State, though in many of what are known as the "rock-ribbed" Democratic counties he ran up with the other candidates on the ticket, and in several of these counties ran ahead of other candidates for minor offices.

All the constitutional amendments appear to have been defeated, though there is a possibility that the amendment authorizing the Legislature to pension the blind has carried. In 149 precincts the vote on prohibition was 67,902 for and 179,500 against. The Gardner land bank in the same precincts received 80,142, and against it 126,400 votes were cast.

On the blind pension amendment the same precincts gave 106,356 for and 104,138 against.

**Vote on State Officers.**  
In 1490 precincts the Republican candidate lead. These include large Republican districts and there will be a large margin in the Legislature. The club was in session recently and Francis G. Blair, State Superintendent of Instruction, was among those present. He offered to conduct a spelling contest for amusement.

After the 53 entered Blair gave them the following words: Legible, ledger, loathsome, malice, miscellanea, niece, sieve, sludge and noticeable. They looked easy, but only one of the 53 spelled all of them correctly. The others refuse to tell just how much they did score, but they are active boosters for the movement in favor of improved spelling.

## President Wilson Arriving at Fire Engine House in Princeton to Cast His Ballot

The President was greeted by a crowd as he arrived at his polling place in his old home in Princeton. The voting booths were in one of the city's fire engine houses.

## PRESIDENT AWAITS THE OUTCOME CHEERFULLY

Rises Before 8 O'Clock and Inquires About the States That Are in Doubt.

LONG BRANCH, N. J., Nov. 9.—President Wilson got up shortly before 8 o'clock this morning to hear again that the outcome of Tuesday's election was not yet certain. He read the morning newspapers before breakfast and planned to take an automobile ride later.

Mr. Wilson's first question had to do with California, Minnesota, New Mexico and North Dakota, the states on which he was told before going to bed last night the result largely hinged. He was informed that definite word had been received from none of those states.

It was taken for granted among officials here that there will be recounts in several of the very close states and it is believed that weeks may pass before questions involved are settled. Officials say that the results will be watched very closely in order to insure a fair verdict.

The President was in a cheerful mood and believes the result will eventually favor him. As related figures began coming in this morning at the executive offices they were telephoned to him at Shadow Lawn. Local Democrats who have been waiting around since the election planning to go to Shadow Lawn in case Wilson wins were at the executive offices early again today.

At 11 o'clock President Wilson was given a complete summary of the news to date, including word that Senator Hollis claimed New Hampshire. Although the word transmitted to President Wilson was almost entirely favorable, he reserved judgment.

The President will leave Atlantic Highlands, N. J., on the Mayflower late today for Rhine Cliff, N. Y., on the Hudson, to take a train at 10 o'clock the next morning for Williamstown, Mass. There he will act as godfather for the child of Mrs. Francis B. Sayre, his daughter. The christening will be held tomorrow.

The President was hopeful that conclusive returns would be received before his departure. Miss Margaret Wilson, who is at Shadow Lawn with her father, showed particular interest in the returns. Before the President was up, Miss Wilson called the executive offices to receive returns. The early reports showing Wilson leading in California, North Dakota and New Hampshire, three of the doubtful states, were carried by her to the President.

Hughes Watches Returns for Two Hours, Close Meeting.

NEW YORK, Nov. 9.—After studying the election returns for two hours this morning Charles E. Hughes went to bed shortly after 11 o'clock. Mrs. Hughes accompanied him. The nominee declined to comment on the returns.

## 6626 MILITIAMEN'S VOTES IN FIVE DOUBTFUL STATES

New Hampshire 1976, New Mexico 307, North Dakota 950, Minnesota 2140, California 161.

NEW YORK, Nov. 9.—The estimates of votes of national guardsmen mailed from the border and yet to be counted, in the doubtful states, are: New Hampshire, 1976; New Mexico, 307; North Dakota, 950; Minnesota, 2140; California, 161.

## PRINCE OF BAVARIA KILLED

Nephew of King Louis Dies in Battle—32 Years Old.

BERLIN, Nov. 9.—(By wireless to Sayville)—Prince Henry, of Bavaria, nephew of King Louis and commander of a battalion of the King's Own Infantry, has been killed in battle. The Prince's mother has gone to the front to bring back the body of her only child.

Prince Henry was 32 years old and unmarried. He was reported to have been wounded in battle last June.

## HUGHES MAY GET ONLY SEVEN ELECTORS IN WEST VIRGINIA

Officials in Several Counties Failed to Put Name of One Republican Candidate on Ticket.

CHARLESTON, W. Va., Nov. 9.—If Charles E. Hughes carries West Virginia he may have only seven electoral votes instead of the eight with which the State is credited. This developed today when it became known that officials in a number of counties had neglected to place the name of S. A. Scott on the ticket as candidate for elector. Scott was named of the Republican State Committee when J. W. Dawson, who had been nominated by the State Republican convention, resigned from the ticket.

## HUGHES MAY GET ONE OF WASHINGTON'S ELECTORS

TACOMA, Wash., Nov. 9.—There appears to be a possibility that although President Wilson carried Washington, Hughes may get one of the seven electoral votes of Washington. The death of A. Stream, a Democratic elector, shortly before election and the substitution of E. M. Connor as elector, came on late in many counties the name of Stream rather than Connor appeared on the ballot.

It is said thousands voted for Stream and that these votes will be invalid, and the difference may be sufficient, according to local Republicans, to give one Republican elector a plurality.

SAN FRANCISCO, Nov. 9.—President Wilson today had a lead of more than 3600 in California, which is expected to decide the election.

In 5505 precincts out of 5917 Hughes had 447,712; Wilson, 451,353; Wilson's plurality 3641. This included all but 21 precincts from Los Angeles, a Hughes stronghold, and San Francisco complete.

None of Sierra County's 16 precincts had been heard from early today and 26 of another mountain district, Tuolumne County, were likewise missing. Lack of telephone communication is responsible for the delay. It was these districts which elected James D. Phelan, Democrat, to the United States Senate two years ago, after Congressman Joseph H. Knowland had been in the lead for more than 24 hours on urban returns.

In 1912 Sierra County gave Wilson a majority of 2, and Tuolumne gave him a majority of 66, though in that year there was a heavy Roosevelt vote and those who voted for Taft had to write his name on the ballots. Most of the Northern California counties are sparsely settled. That section is timber and mining country.

Complete returns from 64 precincts in San Francisco announced today gave Wilson 78,461, Hughes 62,357, a majority for Wilson of 16,104.

In the city of Los Angeles the returns for 118 precincts were held under guard of the United States Marshal and his deputies last night and today they were tabulated.

The unreported precincts in California are believed to contain more than 51,000 votes, though those figures may be greatly changed either way.

In California presidential electors are voted in party groups, each having a vote in the election. For instance, should Hughes carry California, there is a possibility of Wilson taking one vote from the State to the electoral college. The vote was split in 1912; two for Wilson and 11 for Roosevelt.

U. S. Justice Department Investigates Go to Minnesota.

ST. PAUL, Minn., Nov. 9.—Accompanied by a staff of special agents, Hinton G. Clabaugh of Chicago, chief of the Bureau of Investigation of the Department of Justice, arrived in St. Paul today. District Attorney Arthur Jacques said he "understood the man would be distributed throughout Minneapolis, St. Paul and Duluth to keep tabs on the election situation."

WILSON IS AHEAD IN NORTH DAKOTA

FARGO, N. D., Nov. 9.—When placed in North Dakota this afternoon when returns from 174 precincts of a total of 186 had been received, Wilson leads; Wilson 6,666, Hughes 6,226, a lead for Wilson of 440.

## SENATE SURE FOR DEMOCRATS; HOUSE STILL UNDECIDED

Democrats Have 212, Republicans 203, With 16 Districts Not Accounted For.

### CHANGES IN SENATE

Lippitt of Rhode Island, Clark of Wyoming, Sutherland of Utah Lose Seats.

NEW YORK, Nov. 9.—Returns on the election for members of Congress received up to 1 o'clock today showed 212 Democrats and 203 Republicans elected, with 16 districts not yet accounted for.

Seven of these 16 districts are Democratic in the present Congress and nine are Republican. Should each keep to its present political affiliation, the count would stand:

Democrats 219, Republicans 212, which would give the Democrats a majority of three over the 213 Republicans and four representatives of other parties in the House.

The Democrats are assured of control of the next Senate.

### Indicated Defects for Senate.

In the Senate four present Democratic members, according to the latest indications, have been defeated. They are Senators Kern and Taggart of Indiana, Martine of New Jersey and Chilton of West Virginia. Three Republican Senators, Lippitt of Rhode Island, Clark of Wyoming and Sutherland of Utah, also have lost their seats on the basis of the returns.

The defeat of Senator Kern of Indiana by Harry S. New, former chairman of the Republican National Committee, taken from the Democratic organization its floor leader. Among Democratic Senators mentioned for the succession are Sutherland of Delaware, Martine of Virginia, Walsh of Montana and Underwood of Alabama.

The Democrats elected 16 Senators and the Republicans 16, with one State yet to be heard from. The Senators who were chosen, according to the latest indications, were:

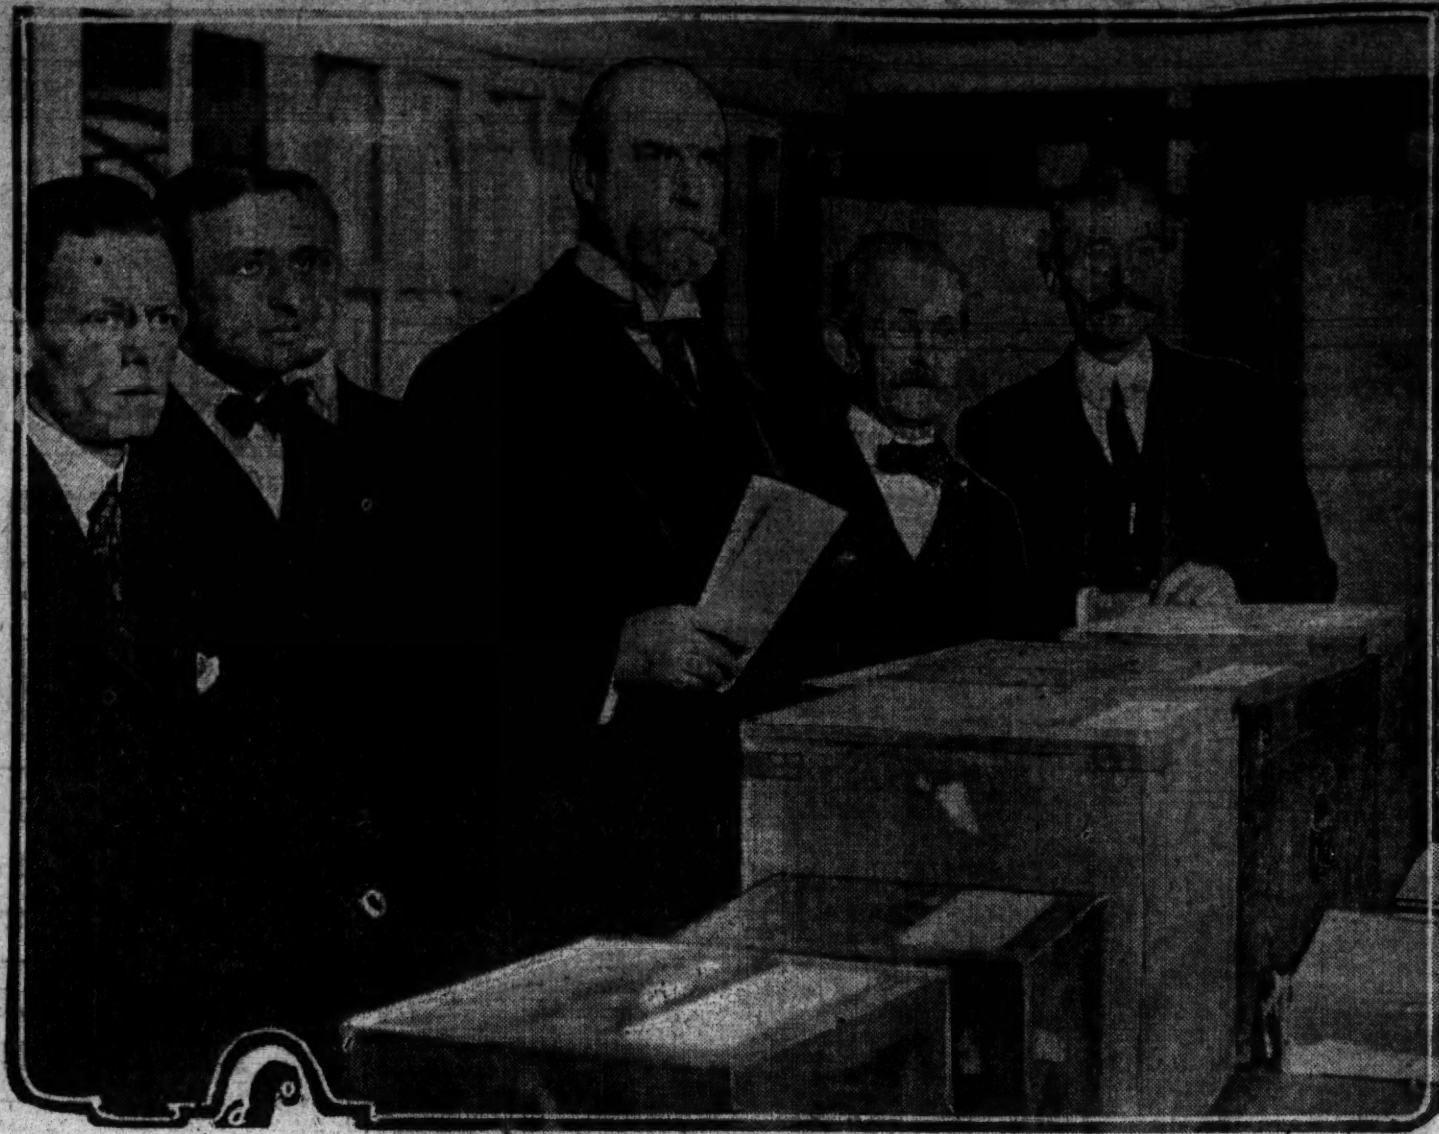

Arizona, Henry F. Ashurst, Democrat; Arkansas, William P. Kirby, Democrat; California, Hiram W. Johnson, Republican; Connecticut, George P. McLean, Republican; Delaware, Josiah O. Wolcott, Democrat; Florida, Park M. Trammell, Democrat; Indiana, long term, Harry S. New, Republican; short term, James E. Watson, Republican; Maine (elected in September), long term, Frederick Hale, Republican; short term, Bert M. Fernald, Republican; Maryland, Joseph I. France, Republican; Massachusetts, Henry Cabot Lodge, Republican; Michigan, Charles E. Townsend, Republican; Minnesota, Frank B. Kellogg, Republican; Mississippi, John Sharp Williams, Democrat; Missouri, James A. Reed, Democrat; Montana, Henry L. Myers, Democrat; Nebraska, Gilbert M. Hitchcock, Democrat; Nevada, Key Pittman, Democrat; New Jersey, Joseph S. Frelinghuysen, Republican; New Mexico, undecided; New York, William M. Calder, Republican; North Dakota, Porter J. McCumber, Republican; Ohio, Atlee Pomerene, Democrat; Pennsylvania, Philander C. Knox, Republican; Rhode Island, Peter Goelet Gerry, Democrat; Tennessee, Kenneth A. McKellar, Democrat; Texas, Charles A. Culberson, Democrat; Utah, William H. King, Democrat; Vermont, Carroll S. Page, Republican; Virginia, Claude A. Swanson, Democrat; Washington, Miles Poindexter, Republican; West Virginia, Howard Sutherland, Republican; Wisconsin, Robert M. La Follette, Republican; Wyoming, John B. Kendrick, Democrat. Total 35.

The situation in the House at this hour is so indefinite that it is impossible to declare whether the Democrats will maintain a majority.

Republicans leaders are still hopeful of controlling the House. If they succeed, Minority Leader Mann will be their candidate for speaker of the House and Representative Fordney of Michigan will become the majority leader and Chairman of the Ways and Means Committee, succeeding Representative Claude Kitchin of North Carolina.

Republicans have made important gains in Illinois and Wisconsin. Of the Democrats defeated in Illinois are Buchanan, who is under indictment for alleged conspiracy in connection with La Follette's Peace Council, which is involved in charges of attempts to restrain trade in

## Charles Evans Hughes Casting His Ballot in a Laundry Office

Mr. Hughes' polling place was in a small laundry back of the Hotel Astor, where he and his family have been living since his nomination. His ballot was No. 13.

## PRESIDENT HAS A PLURALITY OF 13,000 IN IDAHO

Has 59,467 Against 46,205 for Hughes in 552 of the 743 Precincts in the State.

BOISE, Idaho, Nov. 9.—President Wilson maintained a substantial lead over Charles E. Hughes in Idaho early today. Returns from 552 of the 743 precincts gave Wilson 59,467 votes, against 46,205 for Hughes.

The issue for Governor still was in doubt, although the incumbent, Moses Alexander, Democrat, was leading by 1287 over Davis, Republican.

Wilson's Indicated Plurality in SRA, TLE, Wash. Nov. 9.—President Wilson's plurality in Washington jumped above the 10,000 mark early today when returns were received from counties which previously had been separately reported and which went strongly for the President. Wilson lost 600 precincts to be reported, all widely scattered, President Wilson was leading Hughes by a margin of 10,748 votes, with every indication that complete returns would send his plurality above 12,000.

Gov. Ernest Lister, Democrat, apparently will defeat Henry McBride, Republican, for Governor, by more than 10,000.

Senator Miles Poindexter, Republican, who was re-elected, will have the largest plurality of any of the candidates on any ticket.

Delaware for Hughes; Democrats Get U. S. Senator.

WILMINGTON, Del., Nov. 9.—The complete vote in Delaware, according to unofficial returns, follows: Wilson, 21,857; Hughes, 21,655. United States Senator: Josiah O. Wolcott, Democrat, 21,879; H. A. Dupont, Republican, 20,118. Member of Congress. These returns show that Congressman T. W. Miller, Republican, was re-elected by 151 plurality.

President's Kentucky Majority Is Increased to 37,015.

LOUISVILLE, Ky., Nov. 9.—Supplemental returns from all of the 120 counties in Kentucky increased President Wilson's majority to 37,015. The official count is not expected to vary much from the figures in hand. The returns failed to develop any change in the standing of the congressional delegation from Kentucky. All nine Democratic Representatives were re-elected.

Utah Has Gave for Wilson by More Than 20,000.

SALT LAKE CITY, Utah, Nov. 9.—President Wilson, from estimates based on returns from 13 of the 21 counties in Utah, has carried the State by a plurality of more than 20,000.

Incomplete returns from the 25 counties give Wilson 63,507; Hughes, 41,463. For Senator, King (Dem.), 54,829; Southworth (Rep.), 24,467. For Governor, Bamberger (Dem.), 57,464; Morris (Rep.), 45,005.

Nebraska Conceded to President; Majority Put at 20,000 at Least.

OMAHA, Neb., Nov. 9.—Returns from Tuesday's election give President Wilson Nebraska by a plurality of 20,000. Fifty per cent vote from the scattered counties and precincts has been counted and President Wilson's lead is 20,000. Republican leaders concede the State to the President. Democrats claim his majority will be 20,000.

Returns from 84 precincts, including incomplete returns from 20 counties of

the 96 in the State, gave Wilson 90,877; Hughes, 75,877. These figures include Douglas County (Omaha) and partial return from Lancaster County (Lincoln).

Gilbert M. Hitchcock, candidate for re-election to the United States Senate, leads John L. Kennedy, his Republican opponent by 600 with half the State heard from. Republican leaders concede Kennedy's defeat. Hitchcock claims victory by 10,000 votes.

The lead of Keith Neville, Democratic candidate for Governor over A. L. Sutton, Republican candidate, whose campaign was conducted chiefly on the prohibition issue, is less than 500, but is increasing with belated returns. It is now established that the prohibitory amendment carried by at least 25,000.

Wilson Has 4300 Lead in Wyoming. With Only 20 Precincts Unreported.

CHEYENNE, Wyo., Nov. 9.—A lead of 4300 votes, with only 20 of the 580 precincts missing, places Wyoming definitely in the Wilson column, on the face of unofficial returns.

With 40 precincts missing, Gov. John B. Kendrick (Dem.) leads Senator Charles Don Clark in the senatorial race by 2500 votes. These precincts give Congressman Frank Mondell a lead of 11 votes over his Democratic opponent, John D. Clark.

Wilson's Majority in Montana Put at 29,000 to 23,000.

HELENA, Mont., Nov. 9.—Returns that came in slowly from isolated districts do not change the general result in Montana, which has been carried by Wilson by from 20,000 to 25,000 majority. United States Senator Henry L. Myers is elected by 10,000. Congressman John M. Evans, Democrat, is re-elected and Harry B. Mitchell, Republican, is leading Miss Jeannette Rankin, Republican, for Congress, but by a slender majority. The Democrats have elected all but three State officials, and Montana has gone dry by a substantial vote.

Sam W. Stewart, Democrat, was re-elected Governor over Frank J. Edwards by from 5000 to 7000 majority.

Hughes' Lead in Indiana Is Slightly Reduced.

INDIANAPOLIS, Nov. 9.—Charles E. Hughes' lead over President Wilson was slightly reduced by belated official returns received here shortly before noon today. With but 227 out of 1145 precincts in Indiana missing, the Republican nominee had a margin of 987. The totals were: Hughes, 214,931; Wilson, 213,504.

The Republican candidates for Governor and United States Senator still hold good leads over their opponents. For Governor, 213 precincts give Goodrich 213,504; and Adam 206,287. Returns from 228 precincts for United States Senator give New, 204,854; Kern, 200,305; Watson, 203,106; Taggart, 203,231.

Hughes' Plurality in Illinois Growing and Has Passed 125,000.

CHICAGO, Nov. 9.—President Wilson's margin kept on growing today. Hughes' margin over Wilson has climbed past the 125,000 mark and seems destined to go close to 200,000. The entire Republican State ticket seems certain of registering large pluralities, also, with the possible exception of L. E. Edmonson, the opponent of Secretary of State Stevenson, Democrat.

Latest Returns Indicate South Dakota Went 10,000 for Hughes.

SIOUX FALLS, S. D., Nov. 9.—Charles E. Hughes carried South Dakota by approximately 10,000 votes. The suffrage amendment is in doubt, and the prohibition amendment was adopted by 15,000, according to the latest returns from Tuesday's election. Peter Horbeck (Rep.) for Governor, leads Orville Rinehart (Dem.) by 2,500 votes.

Hughes' Plurality in President's State, New Jersey, Reached 54,774.

TRENTON, N. J., Nov. 9.—With 13

counties complete and 25 small districts missing in the eight remaining counties, Charles E. Hughes' presidential plurality today was 54,774 over President Wilson in the latter's own State. The vote for Hughes was 262,386 and for Wilson 207,612.

Merced County complete, where the President voted, gave Hughes a plurality of 383 out of 15,001 votes cast.

Walter E. Edge, Republican candidate for Governor, ran ahead of the presidential plurality in his successful contest against H. Otto Wittmann, Democratic candidate.

With 25 districts missing Edge polled 24,736 votes against 13,799 for Wittmann, or a plurality of 67,055.

Hughes' Lead in West Virginia Is Cut to 2840.

CHARLESTON, W. Va., Nov. 9.—Returns from 100 precincts out of 171 in West Virginia for President give: Hughes, 119,433; Wilson, 116,593, a lead for Hughes of 2840. Returns from 132 precincts out of 171 for Governor give: Robinson (Rep.), 117,100; Cornwell (Dem.), 116,981. Returns from 168 precincts out of 171 for United States Senator give: Sutherland (Rep.), 117,941; Chilton (Dem.), 113,232.

Complete returns announced by Secretary of State Bean last night gave Hughes a plurality of 101, the smallest ever returned in a presidential contest in the State.

WILSON INCREASES LEAD IN CALIFORNIA TO APPROXIMATELY 4500

Continued From Page One.

Western precincts in North Dakota, disclosed a recapitulation shortly before noon today, cut down President Wilson's lead by more than 200 votes. With 1637 of the State's 1829 precincts reported, the count was: Wilson, 51,474; Hughes, 50,775, a lead for Wilson of 702.

Leaders of both parties are claiming substantial victories in the missing precincts, but the Grand Forks Herald (Republican) in its morning edition,

## MAN TAKES IN STRAY DOG, WHICH EATS HIS RABBIT FOOT

Salt Lake City Station Gateman Now Sure Some Bad Luck Will Befall Him.

SALT LAKE CITY, Utah, Nov. 8.—Ed Kauffman, head gateman at the Oregon Short Line Station, being somewhat superstitious, is certain now that some bad luck will befall him soon. His rabbit foot is gone.

Also, Kauffman has almost been cured of hospitality—at least, so far as stray dogs are concerned.

It seems that Kauffman was given a nice rabbit foot, and he hung it up on the wall of his gate shanty, about five feet from the floor.

One morning a long, lean dachshund appeared at the door and pleaded for admittance and food. He gave him both. Then, when he wasn't looking, without warning, the visitor stretched himself and got that rabbit foot. When said dachshund finished that foot there wasn't any foot.

## GARDNER'S WORRIES BEGIN; 10,000 WANT 2500 STATE JOBS

Best Places Governor-Elect Has to Fill Pay \$5000 a Year; Some Only \$750.

Frederick D. Gardner has finished a long and tiring campaign to be elected Governor of Missouri and has won, and his troubles have just begun. He now faces the problem of satisfying probably 10,000 job seekers with 2500 jobs at his disposal.

Unless Gardner's experience is different from that of previous Governors, he will find that pretty nearly every one of the 10,000 or more who want jobs, will consider himself competent for at least a \$5000 job. Most of them, however, will be willing to accept one that pays \$1500 or \$1800, and a lot of them will be disappointed when they find that even the \$500 jobs are gone and nothing is left for them.

The job hunters will have a large assembly to select from. A man can file his application to be named a member of the Public Service Commission at \$500 a year, and then can drop back step by step as he falls at each until he gets to the bottom, which is a \$750 a year janitorship.

Chance to Escape Worries. The Governor-elect has laid the groundwork, however, to relieve himself of much of the trouble incident to passing around the pie. In the campaign he declared that he would take the State institutions out of politics. He can stand on this if he will put on double armor and refer most of the applicants to the various boards he appoints.

But that has not been the way most Governors have done. During the Major administration, one of the first questions asked an applicant has been: "Were you a Major man?" Governors generally have found plenty of supporters at Hickory Corners and various other places who wanted to be rewarded with a janitorship at \$750, or a place as penitentiary guard at \$85 a month. Governors usually figure that men who supported them make just as good janitors or guards as men who supported their opponents.

Job hunters who insist on jobs in St. Louis are somewhat limited in their selection, especially since the police force is considerably reduced on its basis. The worth-while jobs consist only of these:

Excise Commissioner, \$3000; four Election Commissioners, \$3000 each; four Police Commissioners, \$1000 each. Under each of these officials, however, there are a large number of jobs with salaries of from \$1000 to \$2000 each.

List of Jobs Open. Applicants willing to accept other jobs can choose from the following, tabulated according to salary:

\$6500—Four members of Public Service Commission.  
\$4000—Warehouse Commissioner.  
\$3500—State Banking Commissioner.  
\$3000—Warden of penitentiary; Beer Inspector; Highway Commissioner; Insurance superintendent.  
\$2500—Secretary or assistant secretary of State Board of Agriculture; secretary of State Board of Charities and Corrections; game and fish commissioner; land reclamation commissioner; Adjutant General; two Kansas City police commissioners; four Kansas City election commissioners.  
\$2400—Building and Loan Supervisor; secretary of State Board of Health.  
\$2000—State Factories and Commerce and Drug Commissioner; Hotel Inspector; Chief Immigration Commissioner; Labor Commissioner; Chief Mine Inspector; secretary of poultry board.

In addition to jobs with salaries the Governor has a large assortment of men who are willing to serve the State only for honor. Strange to say there usually are a large number of these and Governors frequently have so much worry over the applications for places on the University Board, a normal school board or a state asylum board.

RETURNS COMING SLOWLY IN COURT OF APPEALS RACE

Becker's St. Louis City and County Plurality Over Biggs Is 7941.

Returns as to the election of a Judge of the St. Louis Court of Appeals are coming in with their accustomed slowness. There is nothing thus far to indicate that the plurality of 7941, obtained by William D. Becker, the Republican nominee, in the city of St. Louis and St. Louis County, will be reduced sufficiently to elect Davis Biggs, the Democratic candidate. Becker's lead in the city was 420 and in the county 331. The latest summary showed that 619 voting precincts, including the 500 in the city and the 63 in St. Louis County, gave 20,573 votes for Becker and 91,727 for Biggs, or a lead of 7623 for Becker. The court district includes the city and 39 counties. In the recent primary, when Lambert E. Walther contested with Becker for the nomination, the result was not known until six days after the votes were cast.

HOW WOMEN VOTED IN UTAH

35,000 to 40,000 Cast Ballot; Probably 21,000 for Democrats. SALT LAKE CITY, Utah, Nov. 8.—Democratic headquarters estimates that between 35,000 and 40,000 women voted in Utah Tuesday. Twenty-one thousand of these, according to the same authority, probably voted the Democratic ticket. There were no issues in which women were directly concerned as distinct from the issues in which men voters were concerned. The fact that both parties declared for State-wide prohibition eliminated that point as an issue, which otherwise would have appealed to women particularly.

## DEMOCRATS WILL RETAIN CONTROL OF LEGISLATURE

Holdover Missouri Senators and Results for House, Give Party a Certainty.

The Democrats will retain control of both branches of the Missouri Legislature, enough Democrats being assured of election to the lower house to give that party a majority. There were enough holdover Senators to keep the Democrats in control of the Senate.

The Democratic control of the House probably assures the election of Drake Watson of Ralls County for Speaker. Watson has been obtaining pledges of support from the Democratic candidates. He recently said that he had promises from more than enough of the candidates who were sure of election to give the place to him.

The Senators whose election is shown by the returns are: First District, J. W. McNight; Third, G. W. Glick; Fifth, M. E. Casey; Sixth, J. D. "Big" Walker; Seventh, Wallace Greene; Ninth, Walter C. Goodson; Eleventh, Jesse J. Duncan; Thirteenth, A. S. McClinton; Seventeenth, David W. Stark; Twentieth, O. S. Harrison; Twenty-third, Von Mayers; Twenty-fifth, E. L. Gardner; Twenty-seventh, Sam B. Cook; Twenty-ninth, Frank B. Warner; Thirty-first, Michael Kinney; Thirty-third, Joseph Brogan.

The members of the House shown on the returns to have been elected are: Audrain, E. A. Shannon; Benton, H. C. Chancellor; Bates, J. W. Sharpe; Boone, W. H. Sapp; Caldwell, M. F. McCray; Calloway, N. LOOK AT CHILD'S TONGUE WHEN SICK, CROSS OR FEVERISH

Hurry, mother! Remove poisons from little stomach, liver, bowels.

Give "California Syrup of Figs" at once if bilious or constipated.

Look at the tongue, mother! If coated, it is a sure sign that your little one's stomach, liver and bowels need a gentle, thorough cleansing at once.

When peevish, cross, listless, pale, doesn't sleep, doesn't eat or act normally, or is feverish, stomach sour, breath bad; has stomachache, sore throat, diarrhea, full of cold, give a teaspoonful of "California Syrup of Figs," and in a few hours all the waste, undigested food and bile gently moves out on its little system without griping, and you have a well, playful child again.

You needn't coax sick children to take this harmless "fruit laxative"; they love its delicious taste, and it always makes them feel splendid.

Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has directions for babies, children of all ages and for grown-ups plainly on the bottle. Beware of counterfeiters sold here. To be sure you get the genuine, ask to see that it is made by "California Fig Syrup Company." Refuse any other kind with contempt—ADY.

## HISTORY OF PAST CLOSE RACES FOR PRESIDENCY

Delayed Decision in the Jefferson-Burr, Polk-Clay, Hayes-Tilden and Cleveland-Blaine Contests.

There have been four previous presidential elections in which the vote was extremely close and the result of which was for a considerable time in doubt. Two of these have occurred since the country attained practically its present size and since telegraphic facilities became general.

In the election of 1800 Thomas Jefferson and Aaron Burr obtained an equal number of electoral votes, and the choice of a President was thrown into the House of Representatives. Jefferson was elected on the thirty-sixth ballot.

In 1824 the election depended on the vote of New York, and a small plurality in that State decided the contest in favor of James K. Polk and against Henry Clay. The loss of the Free Soil vote in that State beat Clay.

Tilden-Hayes Contest. In 1876 occurred the famous Hayes-Tilden contest. The first returns indicated the election of Samuel J. Tilden, the Democratic nominee; but in three of the Southern States—South Carolina, Florida and Louisiana—where "electoral" governments still remained—two sets of returns were sent in, one favoring Hayes and one for Tilden. By counting these three states for Hayes, his electoral vote would be 155 to Tilden's 144.

Oregon, with three electoral votes, also sent in double returns, one giving all three votes to Hayes, the other giving Hayes two and Tilden one. To accept the latter result would give Tilden 153, and Hayes, even with the three Southern States, only 154.

The Senate was Republican and the House Democratic, and therefore the House could not agree on a manner of counting the vote. The partisan feeling throughout the country became so intense that alarm was felt for the nation's peace. The calm and pacific attitude of Tilden, "the sage of Gramercy Park," as he was called in his home city, New York, did much to preserve order.

Electoral Commission. Congress finally decided that, in counting the votes, each disputed case should be referred to an Electoral Commission, consisting of five Senators, five Representatives and five Judges of the Supreme Court. For this total of 15, seven Republicans and seven Democrats were chosen, and the fifteenth, Judge David Davis of Illinois, was considered an ideal man for the place, as he was very independent in his political views.

By Judge Davis resigned, and the fifteenth place fell to a Republican Judge, Joseph P. Bradley of New Jersey. Every disputed case was decided in Hayes' favor by a party vote of eight to seven. The election of Hayes was declared March 2, two days before President Grant's term expired. It was the general belief that, in case the result had been delayed past March 4, Grant would have claimed the right to hold over, pending a decision.

Wilson's History of Contest. In his story of this controversy in the "History of the American People," Woodrow Wilson said:

"Such a commission was undoubtedly an extra constitutional body and its decisions disappointed the country of any display of judicial impartiality. It may have hoped from it. Mr. Justice Bradley, who was chosen by his fellow Justices of the commission to be the fifteenth member of the tribunal, voted in every instance in favor of the Republican claims, as did every other member of the commission, whether Judge, Senator or Representative, whose affiliations were with the Republican party. Every Democrat on the committee voted in favor of the claim of the Democratic managers. Every question submitted was settled by a vote of 8 to 7, but there was at least a settlement, which no one dreamed of disputing or attempting to vacate. Sen. Grant gave way to Mr. Hayes and the Government remained in the hands of the Republicans."

Two Fivotal States. In subsequent elections, New York and Indiana became known as the two pivotal States, and it was believed that no candidate who lost both of them could be successful.

The vote of New York decided the extremely close election of 1864, when Grover Cleveland and James G. Blaine were the opposing candidates. The early returns were favorable to Blaine, and it appeared that he could win with the vote of New York, or with Indiana and either Connecticut or New Jersey. Close votes in the latter three states resulted in small pluralities for Cleveland in each, and for several days the New York result was in doubt. The New York State result, as finally declared, was a plurality of 116 for Cleveland. It was openly charged that, in many precincts of New York City, the votes cast for Benjamin F. Butler, the Greenback party candidate, were counted for Cleveland, but the Republicans acquiesced in the result as shown on the face of the New York returns.

Since that time, no close election has occurred until the present. The victory of Harrison over Cleveland in 1888, and that of Cleveland over Harrison in 1892, were decisive. In 1896, 1900 and 1904 William J. Bryan was the Democratic nominee, and he never came nearer than 85 electoral votes to his opponent. In 1904 President Roosevelt won over Alton B. Parker by more than two to one in electoral votes, and in 1908 the success of Wilson, owing to the fact that Bryan was not in serious danger at any time.

DYSPEPTICS! END STOMACH MISERY, GAS OR INDIGESTION

"Pape's Diapepsin" neutralizes acids in stomach and starts digestion.

Stops any sourness, heartburn, or food rising in few moments.

The question as to how long you are going to continue a sufferer from indigestion, dyspepsia, or out-of-order stomach is merely a matter of how soon you begin taking some Diapepsin.

If your stomach is lacking in digestive powers why not help the stomach do its work, not with drastic drugs, but a re-inforcement of digestive agents, such as are naturally at work in the stomach.

People with weak stomachs should take a little Diapepsin occasionally and there will be no more indigestion, no feeling like a lump of lead in the stomach, no general nervousness, gas or stomach or belching of undigested food, headaches, dizziness or sick stomach, and besides, what you eat will not ferment and poison your breath with nauseous odors.

All these symptoms resulting from sour, out-of-order stomach and dyspepsia are generally relieved five minutes after taking a little Diapepsin.

Go to your druggist and get a 50-cent case of Pape's Diapepsin now, and you will always go to the table with a hearty appetite, and what you eat will taste good, because your stomach and intestines will be clean and fresh, and you will know there are not going to be any more bad nights and miserable days for you. They freshen you and make you feel like life is worth living—ADY.

## RECORD COUNTY VOTE MEANS SALARY RAISES

Two Officials Gain \$500 a Year Because of 20,000 Ballot; Republican Ticket Elected.

In Tuesday's election St. Louis County cast the largest vote in its history and returned large Republican majorities, electing the entire republican county ticket. The aggregate vote will be more than 25,000, the combined Republican and Democratic vote totaling more than 19,500.

This large vote will mean increases in the salaries of the Clerk of the County Court and Clerk of the Circuit Court from \$2500 to \$3000 a year. The State law fixes these salaries according to the population of the county, specifying \$3000 in a county where the population is 100,000. For the purpose of determining the population, the law provides that the total vote at the last general election shall be multiplied by five.

The present incumbents, County Clerk Reibel and Circuit Clerk Willcocks, whose terms do not expire until two years hence, said they would file application at once for the increased salaries, but Assistant Prosecuting Attorney New Wolf said the increases would not be applicable until the expiration of the present terms. The increased vote also makes it possible for the County Court to fix the salary of the Coroner at any amount from \$1 to \$4000. Heretofore the office has paid only \$500.

Vote on County Offices.

Following is the vote for county offices: Judges of the Circuit Court: Republicans, McElhinney and Wurdeman, 15,186 and 12,631, respectively; Democrats, Taylor and Scholer, 587 and 684, respectively. Representative—First District: Sattle (Rep.) 7407, Taggart (Dem.) 526; Second District: Sprague (Rep.) 3353, Mittleberg (Dem.) 1580. Judge County Court—First District: Buerman (Rep.) 7740, Moore (Dem.) 526; Second District: Rott (Rep.) 3353, Bowles (Dem.) 1580. Prosecuting Attorney—Falsch (Rep.) 12,925, Jones (Dem.) 7154. Sheriff—Bopp (Rep.) 13,043, Bruno (Dem.) 5902. Assessor—Bopp (Rep.) 12,790, Tiffin (Dem.) 7077. Treasurer—Schaeffer (Rep.) 12,710, Mahanay (Dem.) 9354. Surveyor—Birling (Rep.) 12,318, 650 opposition. Public Administrator—Muller (Rep.) 12,622, Tudor (Dem.) 734. Coroner—Denny (Rep.) 12,761, McNamara (Dem.) 7120. For President the county gave Hughes 12,574 and Wilson 7544. Lamm, Republican, for Governor, ran ahead of the Hughes vote, getting 12,712 to Gardner's 7111.

Vote on Other Offices.

The vote on other offices was: United States Senator—Dickey (Rep.) 12,432; Reed (Dem.) 7288. Lieutenant Governor—Britton (Rep.) 12,841; Crowley (Dem.) 7208. Secretary of State—Akin (Rep.) 13,492; Sullivan (Dem.) 6960. State Auditor—Hackman (Rep.) 11,539; Gordon (Dem.) 6944. Attorney General—Mason (Rep.) 12,642; McAllister (Dem.) 7064. Judge Supreme Court—Division No. 2: Hughes (Rep.) 12,574; Williams (Dem.) 7208. Division No. 1: Johnson (Rep.) 12,589; Woodson (Dem.) 7200. Judge St. Louis Court of Appeals—Becker (Rep.) 11,893; Biggs (Dem.) 9900. Representative in Congress, Tenth District—Messer (Rep.) 12,497; Brunner (Dem.) 7200. State Senator, Twenty-fifth District—A. E. L. Gardner (Rep.) 12,823 (no opposition).

CITY CANNOT SELL COAL

YOUNGSTOWN, O., Nov. 8.—Selitch, Mayor Brunwick reported to City Council here that, Youngstown has no authority to start a coal yard, as urged by Councilman William Harrison. Operation of water, light and power plants is the extent of city's rights in public service activity, he stated.

Coal has advanced sharply in price owing to the small supply and difficulty in getting shipment.

## LONDON IS READING U. S. VOTE RETURNS BEFORE WAR NEWS

Unprecedented Interest in Outcome of American Election Is Being Shown.

PAPERS ARE COMPLACENT

Feel Confident That, Whatever the Issue, Government Will Be in Good Hands.

LONDON, Nov. 9, 3:25 a. m.—The American elections occupy leading positions in both the news and editorial columns of the London papers this morning, and the war news finds itself crowded into a secondary position for the first time since the outbreak of the conflict.

The papers devote from one to five columns to what they call the American "election puzzle."

Some of the editorials stretch into nearly two columns, in an endeavor to explain the why and wherefore of the dramatic finish to the campaign. In the streets, hotels and clubs little else but the election was discussed today, and the bulletin boards were scanned by eager crowds in search, not of war communications, but of the latest election news.

It is evident, the morning papers point out, that this presidential contest has been followed with more interest in Great Britain than any since the republic was founded, and that the man in the street has, as never before, made himself acquainted with the issues involved and with the personalities of the candidates.

The editorials generally emphasize, as they have repeatedly during the past two months, that the election, whatever its issue, is not likely to affect to any marked degree the foreign policy of the United States or its attitude towards the war. Thus the Times, after a painstaking discussion of the views of President Wilson and Mr. Hughes on domestic politics says:

"But, whatever the course of America's politics and whoever her President, we trust and believe that she will continue to give the allies the legitimate support, moral and material, which she has afforded them throughout the war."

**Daily News Is Confident.**

The Daily News says: "The election of 1916 has clothed itself with characteristics worthy of the historic times in which it has fallen. In its sustained uncertainty it has carried to a fitting climax the alternating vicissitudes of the campaign."

"One fact remains certain, namely, with the field shared by two candidates of honor and integrity, a President of honor and integrity will necessarily rule at the White House during the next quadrennium as in the past quadrennium."

American Election Followed With Deep Interest in France.

PARIS, Nov. 9.—The American election is being followed with the deepest interest, the news having the place of honor in most morning papers. The commentators, mindful of the dramatic surprises of yesterday, when the supposedly certain Hughes victory was turned into a possible defeat, are reluctant to commit themselves.

Most of the comment is similar to that of Stephen Pichon in the Petit Journal, who expresses the belief that the victory of either candidate will have little effect on American policy as far as the big questions interesting France are concerned. It is also pointed out that the present administration will remain in power in any event until March 4, and that many things may happen now and then.

The Matin remarks that, while a victory for Hughes might mean a move towards vigorous international policy, it would also mean a protectionist regime. The Matin comments that this change, while unimportant in time of war, might be awkward for French business interests on the return of peace.

**MEN ON TRIAL ON CHARGE OF JURY-BRIDING CONSPIRACY**

Federal Case in Chicago Grew Out of So-Called Alaska Land Fraud Case.

CHICAGO, Nov. 9.—Oliver W. Bourke, Albert C. Frost and Burt D. Wing were placed on trial yesterday before Judge Geiger, in the United States District Court, charged with conspiracy to bribe a Federal juror three years ago. The charges grew out of the so-called \$10,000,000 Alaska land fraud case, tried by Judge K. M. Landis in March, 1913. Bourke was the juror alleged to have been bribed.

Frost, one of a half-dozen defendants at that time, was on trial on a charge of having attempted to defraud the Government of "land in Alaska. Wing was alleged to have been one of those in that conspiracy. A. T. Fitzgerald, formerly a defendant, was chief witness for the Government yesterday.

**CAR RUNS OVER A CHILD**

Little Girl's Leg Will Have to Be Amputated.

Marie Perry, 3 years old, of 504 Olive street, was run down by a street car in front of her home at 8 o'clock last night. Surgeons at the city hospital said that her right leg would have to be amputated at the knee.

The motorman, Oscar J. J. Clark, 1244 Olive street, was arrested. He said he was unable to see the little girl because the vestibule window was covered with rain.

## BUSINESS MEN TO HEAR PLAN TO MAKE THIS "SAFEST CITY"

Field Secretary of Safety First Council to Speak Before North Side League Tonight.

A plan for making St. Louis "The Safest City" will be presented before the North St. Louis Business Men's League tonight by C. W. Price, Field Secretary of the National Safety First Council, who is making a two weeks' campaign organizing the industrial sections of St. Louis for a permanent safety first campaign.

"There are \$5,000,000 wage earners in the United States, according to the last

report of the United States Industrial Commission," said Price. "Every year there are 700,000 men so seriously injured as to make a loss of four weeks' time in each case. In the same time, 355 days, there are 3,500 men killed. This means 35 deaths to workmen per day and 222 seriously injured."

"Every great railroad in the United States during the past five years has organized a Safety Department. During that time they have reduced the number of passengers killed 50 per cent, and the number of employees 47 per cent. During the year ending June, 1916, 235 railroads with a tonnage of 102,000 miles, carried 485,000,000 passengers. "It is an actual fact based on experi-

ence that three-fourths of the deaths and serious injuries can be eliminated. This can be done by reaching the man on the job and making him realize what the boss can do to safeguard his men. This is the purpose of organizing the Round Table Conference in the industries. We are meeting with success and splendid co-operation from St. Louis manufacturers. We have now five districts organized, and I am confident before tomorrow that the sixth—East St. Louis—will be organized."

CARS COLLIDE AT EIGHTH  
AND PINE; GIRL MYSTERICAL

An eastbound Bellefontaine car and a southbound Cass avenue car collided at Eighth and Pine streets this morning. Miss Marie Harrow, 13 years old, of 2114 University street, was carried from the Cass car unconscious and was taken to a drug store at Ninth and Pine streets. When she revived she was hysterical and was taken to the city dispensary and later taken home.

Several car windows were broken. A Cherokee and Bellefontaine car collided at Cherokee street and California avenue last evening. Mrs. W. Gruenewald of 3419 Hartford street, a passenger on the Cherokee car, fainted. She was taken to a drug store and from there sent home.

DRINK WATER TO  
AVOID SICKNESS  
SAYS AN AUTHORITY

Glass of hot water before breakfast daily keeps the doctor away.

Sanitary science has of late made rapid strides with results that are of untold blessing to humanity. The latest application of its untiring research is the recommendation that it is as necessary to attend to internal sanitation of the drainage system of the human body as it is to the drains of the house.

Those of us who are accustomed to feel dull and heavy when we arise, splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, can, instead, feel as fresh as a daisy by opening the sluices of the system each morning and flushing out the whole of the internal poisonous stagnant matter.

Everyone, whether ailing, sick or well, should, each morning before breakfast drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver and bowels the previous day's indigestible waste, bile and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast. While you are enjoying your breakfast the phosphated hot water is quietly extracting a large volume of water from the blood and getting ready for a thorough flushing of all the inside organs.

The millions of people who are bothered with constipation, bilious spells, stomach trouble, rheumatic stiffness; others who have sallow skins, blood disorders and sickly complexions are urged to get a quarter pound of limestone phosphate from the drug store. This will cost very little but is sufficient to make anyone a pronounced crank on the subject of internal sanitation.—"D.V."

WASHINGTON EAGER  
FOR MORE NEWS ON  
SINKING OF ARABIA

No Intimation That Americans Were Among Passengers on Torpedoed British Liner.

## CABLEGRAM FROM PAGE

Ambassador's Message to State Department Gave No Details of Disaster.

WASHINGTON, Nov. 8.—Full information regarding the torpedoing yesterday of the British passenger liner Arabia is awaited at the State Department with concern. There has been no report indicating that Americans were on board the vessel. But the announcement of the British admiralty that a ship carrying hundreds of passengers, including women and children, had been destroyed without warning added seriousness to the submarine questions now pending.

It should develop that the Arabia, carried no Americans the United States probably will take no official notice of the incident, although the deepest interest will be felt because of the possibility that it may mean a change in Germany's method of submarine warfare.

A brief cablegram from Ambassador Page at London today announced the sinking of the liner. It made no mention of Americans on board. In the absence of Secretary Lansing, who will not return to Washington until tomorrow, no formal comment on the case was forthcoming.

## British Ship With \$2,000,000 Cotton Cargo Torpedoed.

BOSTON, Nov. 8.—The British steamer Arabia, of 10,000 tons, which sailed from Alexandria, Egypt, Oct. 26, with a cargo of cotton for Liverpool, has been torpedoed and sunk, according to private advice received here today from Alexandria. The Arabia, owned by the Messageries Maritimes Co., Ltd., of Liverpool, carried about 15,000 bales of cotton valued at \$2,000,000, the greater part of which was intended for transshipment to this port.

Captain of British Ship Sunk Is Taken As Prisoner.

LONDON, Nov. 8.—The British steamer Arabia has been sunk, the crew saved and Capt. Pattison has been taken prisoner, says Lloyd's Agency.

The Arabia left Montreal some time in October, stopped at Mulgrave Town, New Brunswick, and left there on Oct. 20 for Cardiff, Wales. She belonged to the Messageries Maritimes Co. of West Hartlepool, England, and was of 10,000 tons. She was built at West Hartlepool in 1888.

Harvard Man Thought to Have Been on the Arabia.

CAMBRIDGE, Mass., Nov. 9.—Paul R. Danner of this city, an American citizen, it is believed, was a passenger on board the British steamer Arabia, reported sunk Monday in the Mediterranean by a submarine. Danner, who is a Harvard graduate, 25 years old, has been engaged in T. M. C. A. work in Indiana a number of years and according to his parents was returning to spend a furlough at home.

## Lloyd's Report Sinking of the Norwegian Steamer Reine.

LONDON, Nov. 8.—Lloyd's announces that the Norwegian steamer Reine has been sunk. She was 1913 tons gross register and was built at Sunderland in 1912.

## NAVAL LIEUTENANT KILLED IN AEROPLANE WAS MISSOURIAN

Luther Welsh and Companion Lose Lives When Bomb Explodes in Indian Head Flight Test.

KANSAS CITY, Mo., Nov. 8.—Navy Lieut. Luther Welsh, who, with Lieut. C. K. Bronson, was killed yesterday at Indian Head, Md., when an aerial bomb shattered the aeroplane in which they were making a test of the explosive, received his appointment from Kansas City in 1904. His flight for the appointment attracted wide notice at the time, as he found himself two inches under height in his physical examination, after passing a brilliant scholastic test.

Young Welsh placed himself under a physical instructor and by exercise and weights increased his height to the minimum requirement in the allotted time.

Lieut. Welsh was to have been married Nov. 23 to a young woman living in Boston, relatives here declared. His mother was in Indian Head at the time of the accident.

## COUPLE OVERCOME BY GAS

Neighbors Rescue Man and Wife Who Are Revived.

Herman Yeager, 73 years old, and his wife, Mrs. Tillie Yeager, 63 years old, were overcome by gas in their home, 1217 South Sixth street, this morning. Neighbors, attracted by the fumes, broke into the house at 4:30 a. m. and rescued the couple. They were revived at the city hospital.

## Yeager told the police that when he retired at 10:30 o'clock last night he left a gas lamp burning in the front room.

First must have blown out the light, as the house was in darkness when the Yeagers were discovered.

## ADAMSON LAW TEST SUIT FILED BY UNION PACIFIC

Three Grounds Stated on Which Act Is Declared to Be Unconstitutional.

OMAHA, Neb., Nov. 9.—The Union Pacific Railroad Co. filed suit in the Federal Court here yesterday to test the constitutionality of the eight-hour law recently passed by Congress and known as the Adamson act. Thomas S. Allen, United States District Attorney, and four Union Pacific trainmen, representing the different railroad brotherhoods, are made parties defendant.

The bill of complaint alleges that the law is unconstitutional, because it is not a proper regulation of interstate commerce, because it violates the guarantee of the fifth amendment and because it is unworkable as applied to existing conditions under which the trainmen are operating. The bill of complaint is a printed document of considerable size and contains copies of all the schedules under which the trainmen work.

**ENGLAND HOLDING BACK MEN TO RUN FACTORIES, SPEAKER SAYS**

NEW YORK, Nov. 9.—"Great Britain has been running her factories and plants overtime in order that she will be able to assist Russia and France in paying off their notes and bonds at the conclusion of the war," declared A. H.

Whitehouse, M. P., chairman of the Committee on Education of the House of Commons, in an address yesterday before the Brookings Civic Club. "That is one reason the haven't more men in the field. They are at work making money for the country."

Whitehouse said that schoolboys were employed in ammunition factories at \$1 a week instead of \$1.50, the former scale, and that women were engaged in driving cars and trolleys and other work usually done by men.

"The great problem," he said, "is whether these schoolboys will return to their studies, and whether the women will relinquish their places to the men at the close of the war."

**Bank in Kansas City Suburb Held Up.**  
KANSAS CITY, Mo., Nov. 9.—Two masked men yesterday entered the Security State Bank in Rosedale, Kan., a suburb of this city, and after forcing the cashier into the safe, took more than \$100 and escaped in a motor car.

## DRIVE AWAY HEADACHE

Rub Musterole on Forehead and Temples

A headache remedy without the dangers of "headache medicine." Relieves headache and that miserable feeling from colds or congestion. And it acts at once! Musterole is a clean, white ointment, made with oil of mustard. Better than a mustard plaster and does not blister. Used only externally, and in no way can affect stomach and heart, as some internal medicines do. Excellent for sore throat, bronchitis, croup, stiff neck, asthma, neuralgia, congestion, pleurisy, rheumatism, lumbago, all pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frost-bitten feet, colds of the chest (it often prevents pneumonia). 25c and 50c jars; hospital size \$2.50.

## POLICEMAN HURT IN PATROL WAGON'S THIRD ACCIDENT

**Thrown From Vehicle in Collision With Car and Skull Is Fractured.**  
A Police Department patrol wagon figured in its third accident last night when Patrolman Henry Kaiser, 65 years old, was thrown from the vehicle in a collision with a street car. Two weeks ago Patrolman Edward O'Brien was killed when the same wagon was hit by a car at Tenth and Carr streets. Patrolman James O'Leary was seriously hurt last Sunday when the wagon ran into a street car at Fourteenth and Market streets.

Patrolman Kaiser was responding to a burglar alarm sent in from Jefferson avenue and Benton street. Chauffeur Edward Hogan was driving west on Benton street and at Twenty-second street in an effort to avoid a collision with a Bell line car, he steered sharply to the right.

The patrol skidded and sideswiped the street car. Kaiser landed in the street

on his head and his skull was fractured. He was taken to the city hospital. The burglar call had been sent in by Nicholas Hoffmann, a grocer at Jefferson avenue and Benton street, who had caught two men trying to break into his store.

**Velvet and Silk Dresses**  
\$7.98 Values, **\$3.00** Friday, at . . .

"Why, the material alone costs more than \$3!" exclaimed one of our customers, when she was shown some of the Dresses and told the price they were going to sell at Friday. She was perfectly right. The material alone is worth more, but we cleaned out a manufacturer of all his overproduction for a great price concession. Included are several attractive styles, made of beautiful rich velvet and high luster silk poplin. Some trimmed with fur, others of contrasting colonial silk. Two Dresses limited to a customer. None sold to dealers. Worth \$5.98 to \$7.98; Friday, while they last, at \$3.00.

## Iron Is Greatest of All Strength Builders, Says Doctor

### A Secret of the Great Endurance and Power of Athletes

Ordinary Nourished Iron Will Make Delicate, Nervous, Run-down People Strong and Active in Two Weeks

Most people foolishly seem to think they are going to get renewed health and strength from some stimulating medicine, secret nostrum or narcotic drug, said Dr. Sauer, Specialist, who has studied widely both in this country and Europe, when, as a matter of fact, real and true strength can only come from the food you eat. But people often fail to get the strength out of their food because they haven't enough iron in their blood to enable it to change food into living matter. From their weakened, nervous condition they know something is wrong, but they can't tell what, so they generally commence doctoring for stomach, liver or kidney trouble or symptoms of some other ailment caused by the lack of iron in the blood. This thing may go on for years, while the patient suffers untold agony. If you are not strong or well you owe it to yourself to make the following test: See how long you can work or how far you can walk without becoming tired. Next take two two-grain tablets of ordinary nourished iron three times per day after meals for two weeks. Then test your strength again and see for yourself how much you have gained. I have seen dozens of nervous, run-down people who were all but the whole double their strength and endurance and get rid of all the symptoms of dyspepsia, liver and other

troubles in from ten to fourteen days simply by taking iron in the proper form. And this after they had in some cases been doctoring for months without obtaining any benefit. But don't take the old forms of reduced iron, iron acetate or tincture of iron simply to have a few cents. You must take iron in a form that can be easily absorbed and assimilated like nourished iron if you want it to do you any good, otherwise it may prove worse than useless. Many an athlete or prize fighter has won the day simply because he knew the secret of great strength and endurance and filled his blood with iron before he went into the arena, while many another has gone down to ineffectual defeat simply for the lack of iron.

NOTE—Nourished Iron, recommended above by Dr. Sauer, is not a patent medicine nor secret remedy, but one which is well known to druggists and is easily assimilated, does not injure the teeth, make them black, nor upset the stomach; on the contrary, it is a most potent remedy, in nearly all forms of indigestion, as well as for nervous, run-down conditions. The manufacturer, Dr. Sauer, has a confidence in Nourished Iron that he offers to forfeit \$100.00 to any charitable institution if under 80 who lacks iron and increase their strength by taking it for two or three weeks' time, provided they have no serious organic disease. He also offers to refund your money if it does not at least double your strength and endurance in ten days' time. It is dispensed in this city by J. C. & D. D. Drug Co., West-Union Drug Co., Johnson-Randolph Drug Co. and all other druggists.

## GOLDEN STATE LIMITED IN WRECK; SIX INJURED

Breaking of Flange on Wheel Causes Accident Near Topeka, Kan.

TOPEKA, Kan., Nov. 9.—Rock Island train No. 4, known as the Golden State Limited, was wrecked at 6:30 o'clock last night a short distance east of Newman, near Topeka, when a flange on a wheel under the second car of the train snapped off. Six persons were injured, one probably fatally.

Seven of the eight cars in the train were derailed. Four cars were thrown on their sides beside the track and three others were overturned. Between 25 and 30 were in the diner when the train left the track. The dining car was torn from its truck and thrown on its side. Inside it the diners were thrown together in a struggling mass, with which was tangled the loose furniture of the car.

## WOMAN MOUNTED IN MYSTERIOUS DEATH OF NEW YORK MAN

Unidentified Informer, by Phone, Said Adventuress Hounded Edgar Schieffelin.

NEW YORK, Nov. 9.—Acting upon information received over the telephone from some unidentified person regarding the death of Edgar Schieffelin, who ended his life at the Hotel Empire some time Monday night or Tuesday morning, Coroner Healy has begun a hunt for the woman who had visited Schieffelin frequently at the hotel.

The message was from a man who refused to give his name. He said that Schieffelin was the victim of an adventuress who had been demanding money from him during the last three years. It was said by this man that the amount asked Monday afternoon was out of the question, despite the wealth of the Schieffelin family, and that it must have resulted in Edgar Schieffelin deciding to shoot himself.

When this information was received yesterday by the Coroner he at once demanded of P. Vincent Lomb, manager of the Hotel Empire, that he give every assistance possible in establishing the identity of the woman. This Lomb said he would do. Later, when the hotel proprietor was asked for information about her, he said:

"I have seen this woman often and I knew her first name, but never knew anything about her. I am trying to find a man who took her home after she was informed of the death of Schieffelin. This will help the Coroner in finding who she is."

Coroner Healy said he had not considered the woman of any importance in the investigation until yesterday.

"I intend to question this woman about the death of Schieffelin," he said. "I am informed a number of checks have been made out for her during the last three or four years and I will get from the Bronx County Bank the figures showing the total amount she has obtained. I want especially to question her about the events immediately preceding the death of Schieffelin. Before him, when he was discovered lifeless by a maid at 9 o'clock Tuesday morning, was a check made out like those he had given the woman. The amount was not filed in."

"I am told this woman was the last person who saw Schieffelin alive. I do not think she caused his death; undoubtedly he shot himself, but I believe she should be questioned, and I will find her."

Evidence showed Schieffelin fired the revolver shot. Consequently the detective bureau was not called upon to hunt for the woman.

The police discovered that the woman, when leaving the hotel after visiting Schieffelin, frequently was met by a short, wiry man and they would get into a taxicab and go away together. Edgar Schieffelin's brother, Effingham, and his two sisters reside at the Hotel Ansonia, a few blocks further uptown than the Empire. They refused yesterday to make any statement regarding the death.

## MORPHINE IN FISH'S MOUTH

It Was Delivered at Workhouse for Shoplifter.

The finger of a rubber glove stuffed with morphine was taken from the mouth of a fish that was delivered at the workhouse last evening for the supper of Irene Kelly, a prisoner, serving time for shoplifting.

The police last night arrested a waiter who admitted carrying the fish to the workhouse, but denied knowing anything about the morphine. He said that a man friend of the prisoner had asked him to take the fish to her. The police say the Kelly woman is addicted to narcotics. The formation of the man's head aroused the suspicion of a clerk.

Short-Weight Hocksters Dress as Farmers.

The police have issued a warning to housewives against short-weight hocksters dressed as farmers. Yesterday Mrs. Louise Lamferick of 436 Atholene avenue purchased what she thought was two bushels of potatoes for \$2.50 and thought she was getting a bargain. Later she discovered that she had received only a little more than a bushel.

## RECEPTION AND BANQUET TO CAPT. KOENIG AND HIS CREW

Commander of the Deutschland Is Presented With a Watch by New London Citizens.

NEW LONDON, Conn., Nov. 9.—A reception and banquet to Capt. Paul Koenig and the crew of the German merchant submarine Deutschland were given by New London citizens last night. A gold watch, bearing the seal of the city, was presented to the captain by the citizens. The dining room in a hotel was decorated with American and German flags. Officers of the Eastern Post-warding Co. and the crew of the German steamship Wilhelm, "mother ship" of the submarine, were also present. Mayor Rogers and other citizens made complimentary speeches and Capt. Koenig responded briefly.

The submarine is being loaded today and it is understood she may make her dash homeward tomorrow afternoon.

## HIGHEST VOTE IN ST. CLAIR COUNTY IS AGAINST WEBB

Schaumleffel Named for State's  
Attorney, Despite Personal  
Attacks on Him.

### ANOTHER REPUBLICAN WIN

Wilson Leads Hughes by 421  
and Dunne Has Margin of  
889 Over Lowden.

Complete returns from St. Clair County show that Charles Webb of East St. Louis, Democratic candidate for re-election as State's Attorney, was defeated by Hubert Schaumleffel of Belleville by a vote of 15,408 to 13,685.

Schaumleffel's vote was the highest given to any candidate for county office. His friends say his election is a complete vindication in a criminal case now pending against him in St. Louis. On Aug. 14, before the Illinois primary, the Circuit Attorney's office let it be known that it had issued an information charging Schaumleffel and Dorothy Wilson of the Ritz Hotel, 1909 Market street, with a statutory offense. It was alleged that the offense was committed July 7 at the hotel.

**Schaumleffel Charge Frame-Up.**  
After a preliminary hearing before Judge Clark in the Court of Criminal Correction, on Aug. 23, Schaumleffel and Dorothy Wilson were bound over to the grand jury in \$5000 bail. He entered a general denial of the charges at the hearing, and asserted that the charge was a political frame-up, intended to injure his chances for nomination at the primary, in which the several candidates for the Republican nomination were in great rivalry, leading to charges and counter-charges. The witnesses named in the information against Schaumleffel are George P. Cunningham, an East St. Louis private detective, and William M. Tice, a clerk at the Ritz.

Subsequent to his arrest Schaumleffel was nominated in the primary, and Tuesday was elected as State's Attorney. George Eckert was the only other Republican elected Tuesday to county office. He defeated Henry G. Reis for County Auditor. C. A. Summers was elected Recorder, John F. O'Flaherty for Circuit Clerk, and Dr. C. F. Reiser, Coroner. County officers were elected for four years.

Wilson got a majority of 421 in the county; Dunne led Lowden for Governor by 889; D. H. Mudge, Mayor of Edwardsville, led Rodenberg for Congress by 28 votes, although Rodenberg lives in East St. Louis, and two Democrats were sent to the State Legislature.

Congressman Rodenberg's re-election is conceded. He carried Belleville by 99 votes over Mudge. His Democratic opponent.

**Final St. Clair County Vote.**  
St. Clair County has 119 precincts, of which 54 are in East St. Louis, 17 in Belleville and 48 in rural districts. The total vote for the county follows: President—Wilson 23,573, Hughes 23,154. Governor—Dunne (Dem.) 14,423, Lowden (Rep.) 13,685. Congress—Mudge (Dem.) 14,547, Rodenberg (Rep.) 14,519. State Legislature—Desmond (Dem.) 20,954, Holten (Dem.) 20,881. Smith (Rep.) 19,722. Rentschler (Rep.) 19,815. Circuit Clerk—O'Flaherty (Dem.) 14,527, Mittenzway (Rep.) 14,322. Recorder—Summers (Dem.) 14,725, Metzger (Rep.) 14,384. State's Attorney—Webb (Dem.) 13,685, Schaumleffel (Rep.) 15,408. Coroner—Reiser (Dem.) 14,537, Lane (Rep.) 14,184. Auditor—Reis (Dem.) 14,209, Eckert (Rep.) 14,888.

**Doctor Gets \$50 Judgment.**  
Dr. H. B. Gillis of Belleville obtained judgment from Police Magistrate N. J. Jordan for \$50 representing his bill for medical attention to the 8-year-old son of Charles Ritter. The Ritter boy was recently hurt while in a rig with Michael Smith when the rig was struck by a Big Four train. Dr. Gillis introduced evidence to show that Smith guaranteed the doctor's bill.

### \$6000 LOSS IN BARN FIRE

**Tramp Thought to Have Started  
Blaze in East St. Louis.**  
A barn owned by Fred Becklein, valued with its contents at \$6000, was burned last night, supposedly by a tramp. It was located near the end

of the Rosemond car line in East St. Louis.

Bloodhounds followed a trail this morning toward railroad tracks two miles away. There was \$2000 worth of harvesting implements in the barn, and several tons of hay.

# Garland's The Sale of "SPERLING" Suits and Coats

Friday & Saturday—November 10th & 11th  
The Sale We Hinted at in the Morning Papers

The Top-Notch Event of Our Career  
and Your Opportunity to Buy Both Your Winter Coat  
and an Extra Tailleur Suit for the Price of One.

It was our aim, when we wrote our morning paper message, to hold this event back until Monday, but when we got a look at all the Coats and Suits they were so wonderful—so much more attractive than we at first thought, we couldn't wait—we didn't want to keep back from our customers anything so good, so we "hurried," and here they are for Friday and Saturday.

ABOUT THE style, quality, individuality and allround high character of "SPERLING" Suits and Coats—we'll not go into that here. They have so long stood at the head of their class that they need no introduction. Their supremacy is recognized wherever there are smart Dressers. Their quality dependability is well known. Nothing we could say here would add to their superior merits. We'll talk only of this particular sale and how it came about.

The "Sperling" Co. specialize in Suits to sell from \$15.00 to \$45.00 and Coats at about the same range of prices. We are the largest Western distributors of "Sperling" garments. We sell several thousands of their Coats and Suits every season, and when the time comes for them to close out their surplus stocks at a price, we are given first preference. And while we have in some past years got larger quantities in both Suits and Coats, we never secured a lot of such high-class and at such a low price, and we're going to pass them along to our customers, tomorrow and Saturday, on the same basis as we bought them.

## The STROUD PIANOLA \$550

THIS is a wonderful combination. The famous  
Stroud Piano—known for its purity of tone  
and the famous Pianola action, with the exclu-  
sive Metrostyle and Themodist devices.

It would be a wonderful combination at any  
price. But at the modest price of \$550 it is truly  
a privilege. Terms as low as \$14 monthly.

We want you music lovers to come to  
Aeolian Hall and play the Stroud Pianola your-  
selves. We know that then you will be as enthu-  
siastic about it as we are.

## HEAD OF SCHOOL BOARD ANSWERS BOND OPPONENTS

Stromberg Says Their Circulars  
Contain Misstatements and  
Half Truths.

Circulars in opposition to the school  
bond issue to be voted on Saturday,  
which are being circulated, contain half-  
truths and misstatements intended to  
mislead voters, according to Ben. P.  
Stromberg, president of the Board of  
Education, who has issued an address  
to the citizens of St. Louis.

The statement of income for 1915 in  
the circular—\$4,700,444.44—is correct, he  
says, but the statement that \$5,000,000  
was expended is incorrect. The expendi-  
tures were \$4,947,630.45, including a bal-  
ance carried over from the preceding  
year.

The circular compares the total en-  
rollment of last year with the October  
enrollment this year. President Strom-  
berg says that a comparison of the  
October attendance for the two years  
shows an increase this October of 994.  
It is pointed out that, although the  
State voted against the use of school  
money for children under 6 years of  
age, St. Louis gave a majority of 54,000  
in favor of such use of school money.

Expenditures Postponed.  
The balance of \$419,000 on hand at  
the end of the fiscal year is accounted  
for by President Stromberg with the  
statement that building repair and  
equipment expenses were cut down \$500,-  
000 by the postponement of necessary  
expenditures.

President Stromberg declares that the  
Board has done all that it promised to  
do with the money realized from in-  
creasing the tax rate from four mills to  
six mills in 1902. He declares that the  
Board of Education in no other city in  
the United States can show such a  
record of economical and efficient use  
of its income.

The circular, according to President  
Stromberg, is unfair in that it compares  
the tax rate for current expenditures in  
other cities with the tax rate for cur-  
rent expenditures and permanent out-  
lays in St. Louis. He shows from the  
report of the Bureau of the Census that  
the school rate on the true value of prop-  
erty in various cities is as follows:

Cleveland, 570; Pittsburgh, 570; Port-  
land, Ore., 504; Philadelphia, 500; To-  
ledo, 438; Cincinnati, 410; Denver, 335;  
Chicago, 286; St. Louis, 286.

School Cost Per Capita Low.

"In comparison with the 18 largest  
cities of the United States," President  
Stromberg says, "St. Louis in cost per  
capita for schools stands twelfth, and a  
still further evidence that she is not  
extravagant in school costs is in a com-  
parison with Kansas City. During the  
last four years the people of Kansas  
City have authorized a bond issue of  
\$4,000,000 for building purposes. From  
1910 to 1914 the people voted 2 mills ad-  
ditional for current purposes and 2 mills  
additional for interest and sinking fund,  
a total of 10 mills; and for the years 1914  
to 1916 voted 4 mills additional for cur-  
rent purposes and 2 mills more for sink-  
ing fund and interest, a total of 12 mills.

"No candid investigation of the facts  
would fail to discover promptly the  
fallacy in the statement that 'various  
successive School Boards embarked  
upon an extravagant and expensive  
building scheme.' Since 1888 the board  
has erected the kind of buildings re-  
quired under the city ordinance for the  
proper safety and comfort of pupils.  
The average cost of these buildings,  
which have become the pride of the city  
and its best material advertisement, has  
averaged 17½ cents per cubic foot and  
in this cost is included all of the im-  
provements of the school grounds, pav-  
ing, fencing, terracing, etc."

"The Cleveland High School is singled  
out as an example of reckless extrava-  
gance. The building cost 19.6 cents per  
cubic foot, and in this cost is included  
all of the parking of the building and  
all of the permanent building equip-  
ment."

"The circular speaks of waste of  
money in the purchase of the site. The  
site is approximately eight acres, most  
suitably located for the school, on three  
acres of which the building is placed,  
reserving five acres for a playground for  
the high school and other schools in that  
portion of the city. The cost of the site  
was \$60,000, or 15 cents per square foot.

Vacant Rooms Explained.

"The circular calls attention to 22 va-  
cant school rooms in buildings occupied  
for school purposes, and 54 vacant rooms  
in buildings not used for school pur-  
poses, but which it asserts were avail-  
able for school use. It fails to give the  
report of the Superintendent of Instruc-  
tion covering this matter, which may be  
found in the proceedings of the Board  
of Education of March 14, 1916.

"Of the 22 vacant rooms spoken of,  
10 rooms had been a heavy migration of  
the population; four were in an outlying  
suburban school two miles away from  
the nearest school; four could not be used  
because the corridor and stairs of the  
building were not fireproof; and five  
were rooms that would be used at the  
beginning of the following year by re-  
districting. The superintendent's report  
showed further that at the same time  
18 hall or auditorium rooms not intended  
for classrooms were used for that pur-  
pose, and that 19 of the permanent  
buildings had to have their excess at-  
tendance cared for in 11 portable build-  
ings placed in their school yards."

"The superintendent's report showed  
further that two of the buildings report-  
ed as unoccupied were buildings which,  
at that very meeting of the board, the  
board directed be razed because they  
were in a ruinous condition, and further  
that other buildings which might be  
used after a proper fireproof recon-  
struction would be used."

## Overland Automobiles

Which  
Do You  
Prefer?

## Pullman or Freight?

No one would think of riding in a  
freight car if he could enjoy the  
comfort of a big, comfortable easy  
riding Pullman parlor car.

So with automobiles. Most of the  
popular priced cars ride like  
freight cars. This is due to the  
old fashioned type of spring.

Many manufacturers still continue  
to use them.

The Overland does not. The 75 B  
Overland has the latest type of  
cantilever shock absorbing  
springs. As a result it is one of  
the easiest riding cars in the world.  
One demonstration will prove this.

## Fifty Boys and Girls Famous in History

By Albert Payson Terhune.

### NO. 7.—LAFAYETTE; the Boy-Soldier.

VERY small and red-haired boy with a very long and illustrious name decided in 1789 to be a soldier. He was 12 years old at the time. As his family chanced to have tremendous influence in the corrupt French Court of King Louis XVI, the youngster was duly commissioned as a subaltern in the most famous regiment in all France—the historic "Black Moustache."

The boy was Paul Joseph Roche Yves Gilbert de Mottier by name and Marquis de Lafayette by title. The world knows him as "Lafayette." His father, a gallant warrior, had died in battle for France when his son was a mere baby. Thus, from childhood, the future hero was a Marquis.

Most boys of his age and upbringing would have been well content with such wealth and rank and position as he felt heir to. But young Lafayette was not content with any of these things, which is why his name is immortal, while the names of his boyhood companions are forgotten.

Lafayette was not satisfied to rest on the glittering heritage his father had left him. He wanted to make his own mark. And he made it. His first step was to join the army. But there, to his disgust, he found all the ways smoothed for him. As a nobleman, he had no hardships or mortal perils. He speedily learned that his military commission was a mere shadow of the real thing, and that he was expected to loiter about the royal court, doing nothing.

He spent more and more time reading such books and mapping out ideas for a government which should be built on justice and on equality. And, night and morn, he withdrew from the frivolities of his fellow-nobles. Lafayette saw no reason why he should keep his ideas to himself. So he began to talk frankly about them to anybody who cared to listen. As a result, he speedily found himself as popular as a typhoid germ. And, at 15, he found it wise to withdraw to his country estates. There he lived happily for a year, studying the needs of the peasants who worked for him and reading still more books on republican government.

When he was only 15 his guardians brought him back to Paris and made him marry a 16-year-old girl, whom he scarcely knew by sight.

By this time rumors began to drift across the sea of the feeble stand the American colonists were trying to make against their British tyrants. The revolution had not yet dawned. But there was a million signs that it was on the way.

Lafayette's freedom-loving heart was with the gallant liberty-seekers in the colonies. He followed their fortunes with eager interest. There was no chance at home for him to practice his profession of soldier or to strike a blow for the principles he loved.

So he demanded leave to come to America, and cast in his lot with the American patriots. As he was an army officer in France, he could not go away without his own Government's consent. And that consent was curtly refused him.

He tried to escape from France, but was caught and brought back. He made a second attempt. In this flight he was again overtaken, but he gave his pursuers the slip by hiding under a pile of straw in an inn yard until they had made a vain search of the inn and ridden off.

After many adventures Lafayette crossed the French border into Spain, and at last was able to take ship for America. To do this he risked imprisonment, possible death, and the more than possible confiscation of his title and wealth. He counted such risks as nothing in the holy cause of Liberty.

### Some Good Recipes

**Halibut Baked (a Fine Brown Color).**—Halibut, a little butter, salt and water, a tablespoon walnut oil, a desert-spoonful of Worcestershire sauce, the juice of a lemon, a little brown flour, a piece of halibut weighing 5 or 6 pounds. Lay in salt and water for 2 hours, wipe in a clean cloth and score the skin. Have the oven moderately hot and bake about an hour. Melt a little butter in hot water and beat the fish occasionally. It should be a fine brown color. Any gravy that is the dripping pan mix with a little boiling water, then stir in the walnut oil and Worcestershire sauce, the juice of the lemon and thicken with the brown flour, mixing with a little cold water previously, give one boil and serve in a sauce-boat.

**Honey Drop Cookies.**—Two eggs, 1/2 cup butter, 4 teaspoons baking powder, 1 cup honey, 1 1/2 teaspoons caraway seed, speck salt, flour (about 2 cups). Blend the honey and softened butter together, then add the well-beaten eggs. Mix and sift two cups of flour, with the baking powder and salt, then add to the mixture. Add the caraway seed, blend all well together, then add enough flour, sifted, to make a stiff dough. Drop from a teaspoon onto a buttered baking sheet about two inches apart and bake in a hot oven until brown.

**Almond Cakes.**—Beat 2 eggs light, add 1 cup sugar; beat again; add 1/2 cup almonds, cut small; 1 teaspoon vanilla flavoring, 3/4 cups flour sifted with 2 heaping teaspoons baking powder; beat smooth; put onto a well-floured board, and with the hands roll lightly into balls the size of a walnut; place in a well-greased shallow pan and bake in a quick oven. These are very nice.

**Stuffed Dates.**—Remove seeds (after washing and drying), 4 choices dates; mix together 1/4 cup each of chopped preserved ginger, confectioner's sugar and creamed marshmallow. Add a grating of lemon rind or a teaspoon of sherry for additional flavoring, if desired. Use mixture for filling the dates. Roll in granulated sugar. Serve on a yellow or gold plate.

**Pineapple Tapioca.**—Half cup tapioca, half cup of sugar, 4 cups water, 1 pint canned pineapple, whipped cream, currant jelly.

Mix the tapioca and sugar together and add to the water, then cook until clear. When partly cooled mix with the chopped canned pineapple, then chill. When ready to serve, garnish the top with cubes of currant jelly and serve with whipped cream.

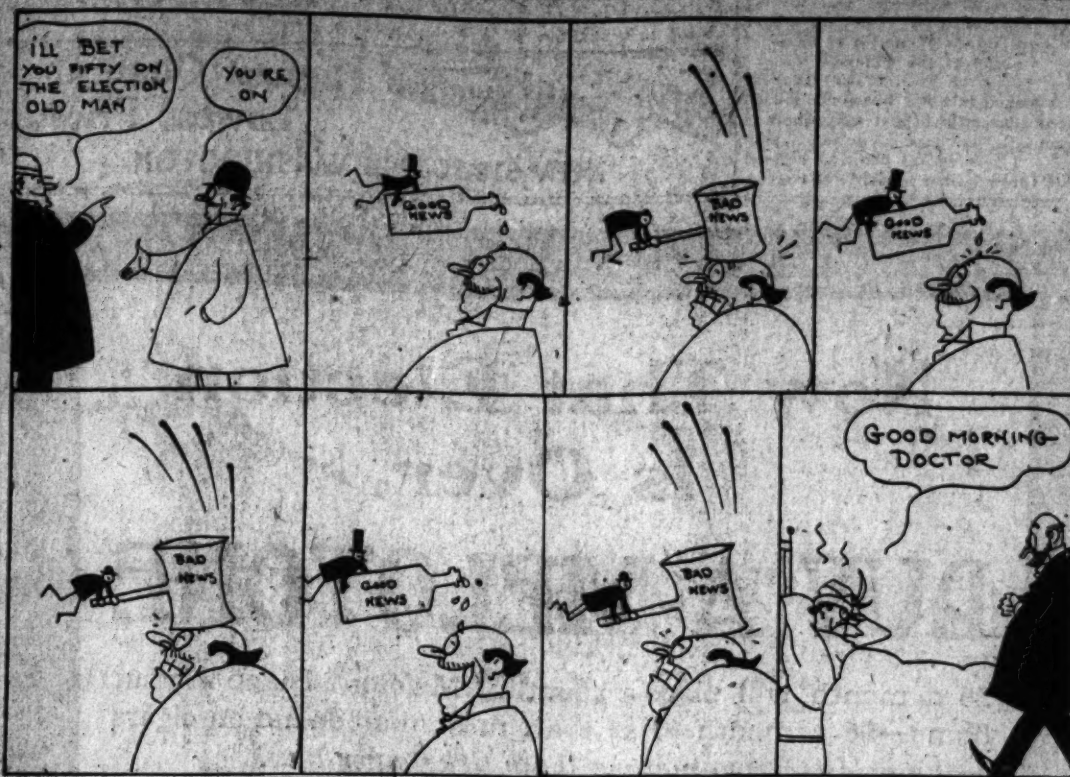

**Peanut Butter Sandwiches.**—Season peanut butter with a bit of salt and paprika and soften with cold water to spread. Peanut butter with grapefruit marmalade makes a delicious combination for sandwiches. Spread the peanut butter or mixture on thin slices of bread, press together with a crisp leaf of lettuce and cut, ready for serving.

**Orange Frosting.**—Mix together the yolk of 1 egg and 2 tablespoons of water; add 1/2 teaspoon of extract of orange and enough confectioner's sugar to make it thick enough to spread. This will frost one cake.

**White Frost Cake.**—1 cup butter, 1/2 cup sugar, 1 egg, 1/2 cup milk, 2 teaspoons baking powder, 1-3 of a nutmeg, 1 pound currants, 1/4 pound citron, 1/4 cup chopped English walnuts, 1 tablespoon orange juice, grated rind and juice of 1 lemon, 3/4 cup flour. Beat the butter and sugar in a cream and then add beaten yolks, orange juice,

## GOOD MORNING, DOCTOR.

By LEMEN

### Beauty Hints for the Woman Motorist.

THE best way to ward off the red nose bugbear is to keep the circulation good. No motorist wants to have that florid flush so apt to bring accusations of other reasons, but exposure to wind in driving is hard on the skin, anyway, and tendency to red nose too often materializes. Good blood and good circulation are obtained by proper dieting and plenty of fresh air, the latter of which, heaven knows, the motorist should have. The individual's job is, then, to keep in this condition.

After good blood and good circulation have been obtained, there are ways of keeping them, such as the hot bath at night and the cold bath in the morning. If you do not react sufficiently to a cold plunge, however, you should not take one. If your teeth chatter and your body quakes, you do not react sufficiently. You should glow and feel a wonderful warmth afterward. If the reaction is complete, the red nose will become less red; if not complete, the circulation is not helped and the red nose will remain red.

The blood is stimulated and has no time for idleness, such as its gathering at the tip of your nose implies, when a quick rub-down after the cold plunge brings a warm glow.

It takes patience to keep warding off a red nose. On raw, cold days cream and powder should be used for this purpose.

Put a delicate layer of cold cream on the face and follow it with a fine-textured face powder. A small amount of cream is enough. If much is used an oily face is the result. If your skin is naturally oily, you should use a greaseless cream; if your skin is dry, there is a cream that contains pure oil.

To sum up: Diet and the cold plunge, together with a certain amount of protection from the weather, will make a red nose the bugbear of the past rather than of the present and future.

### Flowers for Highway.

It remained for a Georgia woman, Mrs. Logan Pitts, Calhoun, to introduce the idea of planting trees and flowers along the Dixie highway in the "Cracker State." Mrs. Pitts is chairman of the Dixie Highway Beautifying Committee for Georgia, and the result of her work has appeared already in flower-bordered roads in that section. The farmers have helped in this work, their aid being enlisted wherever possible.

### The Great Fire of London

ALTHOUGH London has been visited by many conflagrations, that one in its history which is capitalized as "The Great Fire" broke out on Sept. 2, 1666. The facilities for fighting fire were then of the crudest description, and the conflagration raged for four days. When it had at last burned itself out, the conflagration had almost destroyed the city. The ruins covered 40 acres, having wasted 800 streets and consuming nearly 10,000 buildings. Eighty-nine churches, including St. Paul's, the Royal Exchange, the Guildhall, the city gates and many public buildings were destroyed. Less than a third of the city was left untouched by the flames.

The fire was a blessing in disguise, for up to that time the people had suffered terribly from pestilence and plague, due to the fact that they were densely packed in old wooden houses built along fetid lanes, without any regard to sanitation. The new London that arose on the ruins of the old provided much more healthful habitations, and after its purification by fire London seldom suffered from such terrible pestilences as had previously been of frequent occurrence.

## Reflections of a Bachelor Girl

By Helen Rowland.

EVERY man "rocks the boat" of happiness at least once during a love affair—usually by trying to leap out of it before it lands in the port of matrimony.

Man wants but little here below—but somehow that little always seems to be something different from what he already has.

"Optimism" is becoming so fashionable that a cheerful smile is almost as necessary to your morning toilette as rouge and a boucle cap.

The sensation which a man has when he suddenly discovers that he is falling in love is something like the sensation he might have if he saw a taxicab coming down on him from one side, a trolley car steering for him on the other and an aeroplane about to drop on him from above.

No, dearie, only a bungler will make love to a woman the first time he meets her; a gentleman will wait until the second time, an artist until the third time, an optimist until the fourth time—and a fool may wait even longer.

In some things a dog is much more sensible than a man; for instance, a dog loves you simply because you love him; a man usually loves you because you don't.

If sweethearts should agree to leave out of their conversation all flattery, all untruths and all foolishness, the silence between them would be almost as dead as that between husband and wife.

"The modern lover," says Prunella, "is about as impetuous as a moving picture of the Sphinx and as thrilling as a game of clock golf."

## NEW MOTORING COATS SHOW CLEVER USE OF MANY GATHERS

PROBABLY the newest point about the new motoring coat is the clever handling of the fullness. It does not give the effect of an extra yard as it did last year, and is so well handled it gives the new silhouette of long, straight lines together with fullness.

One excellent coat is of the length extremely popular this year. It is a bit longer than three-quarters and yet shows the hem of the skirt. The cape is its particular claim of distinction. The fullness of the side sections are subdued by clever cutting and arrangement. Ruffled, as it is, just below the hip, most of the flare lies below the

ruffle. The belt section further confines the play of the fullness, and the fitted section of the back carries out the idea of reserve in flare.

Though the belt is placed almost at the exact waist line, one gets the effect of the long waist Paris is preaching and practicing this year. This effect is heightened by the yoke effect obtained in the treatment of the skirt of the coat.

One pretty model is made of brown wool velour. A large seal collar and cuffs give smartness and that luxurious hot-house appearance so much in evidence on the streets this season. The coat closes high about the neck. The collar, like its fellows of the new fashion, does not hug the neck too closely, but gives a stand-offish impression. The fur cuffs are deep, but do not come to the bottom of the sleeves, another new note.

### Cleaning Rugs.

When shaking heavy rugs held by the sides. If possible, spread them wrong side up on the grass and beat to dislodge the dirt, then brush off and hang up to air.

### Have You a Paper Carpet?

Floor coverings manufactured from paper are made extensively in many United States mills.

This is the time of the year when carpets are easily contracted. Therefore, remember that there is always a draft blowing through a buttonhole.

## Mother-Made, Quick-Acting Cough Syrup

Should Be Kept Handy in Every Home—Easily Prepared and Costs Little.

Mother, you'll never know what you are missing until you make up this inexpensive, quick-acting cough syrup and try it. Children love its pleasant taste and nothing else will loosen a cough or chest cold and heal the inflamed or swollen throat membranes with such ease and promptness. It's equally as good for grown-ups as for children.

This splendid cough syrup is made by pouring 2 1/2 ounces of Pinex (50 cents worth) into a pint bottle and filling the bottle with plain granulated sugar syrup. This gives you a full pint—a family supply—of much better cough remedy than you could buy ready-made for \$2.50—a clear saving of \$3.

Hoarseness and ordinary coughs are conquered by it in 24 hours or less. Pinex is a highly concentrated compound of genuine Norway pine extract combined with quaaloo and is famous the world over for its quick healing effect on the membranes. Beware of substitutes. Ask your druggist for "2 1/2 ounces of Pinex" with directions and don't accept any thing else. Guaranteed to give absolute satisfaction or money refunded. The Pinex Co., St. Wayne, Ind.

## WANT 'AD' FINDS MISSING GOOSE

"Mike" is recovered by Southampton. A Post-Dispatch want "ad" resulted in the finding of "Mike," a goose, 12 years old, owned by Miss Fay Stockton, 436 Devonshire avenue. A boy who took the goose two or three days ago sold it for 50 cents to a negro at Maplewood.

Evans Williams of 23 Valley avenue, the purchaser's next door neighbor, saw the want ad and notified Miss Stockton. She went to Maplewood yesterday, paid the negro \$1. gave Williams a \$5 reward and took her pet to her home in Southampton. She is a teacher in the Bryan-Mullaphy School.

## SHACKLETON MEN, BACK IN ENGLAND, WOULD GO TO WAR

Men Who Endured Exceptional Hardship in Antarctic Show Readiness to Fight.

## STORY OF ADVENTURES

Long Wait for Sir Ernest's Return With Rescue Ship Rewarded at Last.

Special Cable to the Post-Dispatch and the New York World.

(Copyright, 1916, by Press Pub. Co.)

LONDON, Nov. 8.—Eleven members of the Shackleton Antarctic expedition, which sailed two years ago from South Georgia for Weddell Sea in the Endurance, have arrived in London. Their names are: Frank Wild, the second-in-command; James J. Worrie, geologist; Leonard H. Hussey, meteorologist; R. Clark, biologist; W. James, magnetician; George Marston, artist; Maj. T. Orde, motor engineer and storekeeper; Dr. A. Macklin and J. McIlroy, surgeons; T. Green, the third officer, and W. Stephenson, fireman.

They came from Buenos Aires in the steamship Highland Laddie, of the Nelson Line, which generously gave them free passage.

All the members of the party, in spite of the extraordinary hardships they have undergone in the last two years, are in the best of health, and are looking eagerly forward to taking part in the war.

The remaining members of the Weddell Sea party are coming from South America in another vessel.

Shackleton Goes After Others.

Sir Ernest Shackleton is on his way to Dunedin, New Zealand, to join the Aurora, his auxiliary ship, which will sail at the end of this year to rescue Capt. Macintosh and his nine companions, who were marooned in the neighborhood of the Ross Barrier, when the Aurora broke away in a blizzard 20 months ago.

"Compared with my previous Antarctic experience," said Wild to the Post-Dispatch correspondent, "this was by far the hardest, all things considered. There was constant anxiety and fresh problems presented themselves every day. The last week in small boats before we reached Elephant Island was the climax. Sir Ernest and myself had no sleep at all, and but for the way in which Sir Ernest nursed some of the men, we should never have brought them through."

"From the calculations I made I expected an attempt to rescue us (meaning the 22 men) Shackleton left on Elephant Island when he and five others started away in a small boat for assistance) toward the end of May, but the ice conditions were so bad there was no hope of it succeeding. Then I figured that our chief would try to get a wooden ship and return later."

"In my diary I find Aug. 25 as the approximate date. The actual day Sir Ernest took us off was the 30th. Of course we had no idea it was his fourth attempt, and it was the luckiest thing in the world that the fishing ship Yelcho came when she did. Two days earlier she wouldn't have got anywhere near us and two days later would probably have been as bad, for the ice never cleared off more than two or three days at a time."

Smoke Signal Sent Off.

"It had been arranged that a gun should be fired from the ship when she got near the island, but as a matter of fact, we saw the Yelcho before we heard any gun. It was an occasion one could not easily forget. We were just assembling for lunch—for we had heard the call to lunch—when there was another hail from Marston, of a ship. Some of the men thought it was lunch call over again, but when there was another yell from Marston the lunch had no further attractions. The ship was about a mile and a half away and steaming past us from shore, and, catching up somebody's coat that was lying about, I stuck a pick into a tin of kerosene kept for the purpose, poured it over the coat and set it alight. It flamed instead of smoking, but that did not matter, for the chief already had recognized the spot where he had left us and the Yelcho was turning in."

"Nobody else could have picked it out, for there was eight feet of snow before the hut—though we had shifted about 30 tons of the stuff that morning—and any sign of life on the island must have been invisible from the sea. A pretty heavy sea was running, but we didn't waste much time in getting aboard and in less than an hour we were steaming north."

Pictures of Antarctic.

"Although we met such disasters, the expedition had very considerable scientific results. Burley, the photographer, secured the most wonderful Antarctic pictures that have ever been obtained. In all I should think we have between 7000 and 8000 feet of cinematograph film and hundreds of still pictures."

"The crushing of the Endurance in the ice, the abandoning of the ship, her foundering and the camp scenes on the ice floes of Weddell Sea and our life on Elephant Island will live again on the screen. I should think this is the first occasion on which a cinematograph film has been taken of a ship going down."

"Even when Sir Ernest had rescued us and our interests in this kind of work had vanished, Hurley stuck to it to the end and he got the final scenes when we were taken off."

## SALOON ROBBERS PUT WIFE INTO ICEBOX WITH CUS. OMERS

Prime Fighter Also One of Those Whose Hands Went Up at Command of the Thieves. Mrs. Margaret Foell of 229 Hickory street looked into her husband's saloon at that address last night when she was attracted by an unusual noise. A man pointed a revolver at her and ordered her to throw up her hands. She obeyed.

There were three robbers in the saloon and they had the proprietor and four customers lined up against the wall with their hands elevated. Among the customers was Leo Kelly, the lightweight prize fighter, of 324 Caroline street.

Mrs. Foell was ordered to line up with the others and was put into the icebox with the others. Foell was robbed of \$25 and James P. Smith, 225 Park avenue, lost \$2.50.

## "DAY OF DEATH" ON THE SOMME IS DESCRIBED

German Newspaper Tells of Repulsing British Onslaught in Fierce Battle.

BERLIN, by wireless to Saville, Nov. 9.—"A day of death in France," Nov. 5 is thus characterized by the war correspondent of the Berliner Tageblatt, according to the Overseas News Agency, which quotes from the article as follows:

"On this day also an attack near Gueudecourt could not be launched in consequence of the German curtain of fire which held the troops in the trenches and swept the ground where assemblies were taking place with ghastly certainty.

"The French finally were able to develop attacks at certain places. Evidently in order to animate the courage of the men in the trenches, rather than from confidence that the attempt to break through would succeed. We may have gathered behind the front cavalry and field guns, which, it was intended, were to cross the destroyed trenches of the opposing forces and roll up from where the breach was made the German front north and south.

"The great thrust resulted in a great day of death for the storming columns. They entered the German trenches only to the northeast and southeast of Caillay, where they were defeated in sanguinary hand-to-hand fighting, while other storming columns in complete disorder fell back to their own trenches.

"Three times a hopeless attack against Le Transloy was launched. The French troops were decimated by the German fire and the attempts were then abandoned. The Somme district presented a terrifying field of dead. The German artillery fire was excellent everywhere against the troops in the crowded trenches. It routed the cavalry squadrons and broke down field batteries which had been only waiting for the signal to attack.

"The French also suffered heavy defeats in the powerful engagements between Le Sars and Bouchavesnes."

### NORWAY REPLIES TO PROTEST ON RULE AGAINST U-BOATS

CHRISTIANIA, via London, Nov. 9.—The Norwegian note replying to the German protest against the U-boat ordinance of Oct. 13, was today delivered to the German Ambassador here.

The controversy between Norway and Germany over the submarine question reached an acute stage with the passage of the ordinance of Oct. 13 by King Haakon's Government. By this ordinance submarines of belligerent Powers were forbidden to traverse Norwegian waters, except in cases of emergency. In the latter instance they were directed to remain upon the surface and fly their national flag. Mercantile submarines were also ordered to remain on the surface and display their country's colors.

The ordinance provoked strong feeling in Germany and Dr. Alfred Zimmermann, the German Under-Secretary for Foreign Affairs, was quoted in a Copenhagen paper as saying that the German note of protest would be a serious one, and that Germany would not calmly submit to the action of the Norwegian Government.

### KANSAS CITY DRYS CONSIDERING A LOCAL OPTION ELECTION

Prohibition Majority of \$411 in Jackson County at State Election Encourages Leaders.

KANSAS CITY, Nov. 9.—The majority of \$411 for prohibition in Kansas City and Jackson County at the election on Tuesday has encouraged the dry advocates so that they are seriously considering the advisability of asking for an election within the next few months on local option.

The agitation for local option had its start late on Tuesday night when a number of leaders in the dry movement held an informal conference with Republican and Democratic politicians, who had rendered assistance to the drys. While the politicians did not promise support in such a move they did not altogether discourage it, and indirectly offered encouragement, provided any substantial sentiment developed.

### CITY COUNSELOR'S SEAL STOLEN; GETS NEW LOCK

Raincoat and Box of Cigars Among Other Things Stolen From City Hall Office.

City Counselor Daues today had a special lock put on the door of his office in the city hall, following several recent thefts.

Daues said his raincoat was stolen from the office a few nights ago. The next time the thief visited the office and stole a box of cigars from Associate City Counselor Young's desk. Tuesday night the official seal of the office was stolen.

The seal cannot be used fraudulently, and Daues thinks the thief took it for the salable metal it contained.

## INEZ MULHOLLAND IS IN GRAVE CONDITION

Suffrage Worker Who Was Stricken on Tour to Undergo Blood Transfusion.

NEW YORK, Nov. 8.—Mrs. Inez Mulholland, the suffrage worker, who, when campaigning for Hughes in the West, fell ill of throat affection in Los Angeles, grew suddenly worse yesterday. Her physicians have decided that a transfusion of blood is necessary. Mr. and Mrs. John E. Mulholland, her parents, have departed for California, and her husband and sister are there. A few days ago it was believed the

critical stage of her illness was passed. The exhaustion of the young speaker has been greatly against her. Mrs. Mulholland toured in the interests of the Women's Congressional Union, advocating the Federal amendment for suffrage and the defeat of the Democrats because of their failure to effect this. She had addressed audiences in the large cities of the 11 suffrage states.

Mrs. Mulholland is a lawyer, who cannot practice at the bar of New York because she has become the wife of an alien. Her husband is Dutch. She was identified with Mrs. Pankhurst's activities in England, and was one of the party on the Ford peace ship.

## TAKE A GLASS OF SALTS TO FLUSH THE KIDNEYS IF YOUR BACK HURTS YOU

Advices Missouri folks to overcome Kidney and Bladder trouble and Rheumatism while it is only trouble.

Eating meat regularly eventually produces kidney trouble in some form or other, says a well-known authority, because the uric acid in meat excites the kidneys, they become overworked; get sluggish; clog up and cause all sorts of distresses, particularly backache and misery in the kidney region; rheumatism, twinges, severe headaches, acid stomach, constipation, torpid liver, sleeplessness and bladder irritation.

The moment your back hurts or kidneys aren't acting right, or if bladder bothers you get about four ounces of Jad Salts from any good pharmacy; take a tablespoonful in a

glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia and has been used for generations to flush clogged kidneys and stimulate them to normal activity; also to neutralize the acids, so it no longer irritates, thus ending bladder disorders.

Jad Salts cannot injure anyone; makes a delightful effervescent lithia-water drink which millions of men and women take now and then to keep the kidneys and other organs clean, thus avoiding serious kidney disease.—ADV.

## SILISTRIA HAS BEEN STRATEGIC POINT FOR AGES

Present Rumanian Stronghold Changed Hands Many Times in Russo-Turkish Wars.

POPULATION DWINDLED

Surrounding Region Supports Prosperous-Looking Vineyards and Tobacco Fields.

WASHINGTON, Nov. 8.—Silistria, one of Rumania's strongholds on the Danube, which fell before the Bulgarians and Germans under Field Marshal von Mackensen in their drive through the Dobruja, but which, according to reports, the conquerors have been forced to evacuate, is the subject of the following war geography bulletin issued by the National Geographic Society:

"Up to three years ago, when Rumania acquired from Bulgaria extensive territory in the Dobruja region as her spoils of the Second Balkan War, Silistria, 31 miles down the Danube from Stutshuk, was a Bulgarian border city situated in the corner formed by the Danube on the north and the Rumania-Bulgaria boundary line on the northeast. Today it is more than 40 miles within Rumanian bounds.

"The town, which in 1908 had 12,000 inhabitants, half of whom were Bulgars and a third Turks, occupies a low peninsula, which juts out into the Danube. The surrounding region is extremely fertile, supporting prosperous looking vineyards and tobacco plantations, but it is handicapped by a scarcity of water, the natives frequently excavating pits to catch the rain. The chief exports are cereals, wines and wood, while milling, tanning and weaving are the principal industries.

"Near Curious Caverns. "One of the curiosities of the town is a subterranean cavern called the Hombaba, where the inhabitants have been wont to seek safety during the numerous bombardments to which the community has been subjected in modern times.

"From the days of ancient Rome, Silistria has been an important strategic point, its name under the empire being Durostorum, one of the flourishing cities of Moesia Inferior.

"The city under its present name did not acquire a place in world history until the first year of the reign of Simeon, 'Emperor of the Bulgarians and Autocrat of the Greeks,' a title which the monarch assumed and defended during his sway of 34 years. It was under this Prince that Bulgaria experienced her golden age, assuming a rank among the civilized nations of the earth, according to the historian, Gibbon, who added that 'the glory of the Bulgarians was confined to a narrow scope, both of time and place.'

"Simeon, upon succeeding his father, Boris I, found a pretext for war with the Greeks in the fact that their Emperor, Leo the Philosopher, had granted to two rapacious subjects the exclusive right to trade with Bulgarian towns. Hostilities were declared and the forces of Simeon easily defeated the Byzantines, the Bulgarian Prince showing his contempt for his adversary by releasing his prisoners of war and sending them back to their sovereign after having first cut off their noses.

"When Simeon died in 927 he was succeeded by his son, Peter, a weakling, who was unable to hold the empire together. Forty years after his accession to the throne this ruler was attacked from the south by the Greeks and from the north by the Russians, the latter now making their first appearance on Bulgarian soil under the bold, hardy warrior, Prince Sviatoslav, whose food was horseflesh and whose bed a bearskin thrown upon the ground.

"Sviatoslav stormed and captured Silistria and for four years the city remained in his possession, but at the end of that time he was himself attacked by the Byzantines, who, though they had invited him to enter Bulgaria as their ally, were opposed to his remaining in the land. After offering a heroic resistance for three months, the Prince was forced to evacuate the coveted stronghold. While on his retreat to his native capital, Kiev, he was attacked by the savage Pechenegs and, being captured by them, suffered the same fate which was meted out to the Byzantine Emperor Nicephorus, who fell into the hands of the Bulgarian chief, Krum, a century and a half previously—his head was cut off and his skull converted into a goblet from which the victor drank in celebration of his success.

"Silistria came into possession of the Turks through the victory of the Visier Ali Pasha in 1828, and under Ottoman rule the town flourished, becoming for a time the chief city of the Lower Danube.

Changes Hands Often. "During the nineteenth century Silistria changed hands many times in the numerous Russo-Turkish wars. When

it became a possession of the Czar in 1829 it had twice the population of which

it boasts now, but after seven years of Russian occupancy, during which time it was held as a pledge for the payment of Turkey's war debt, the population had dwindled to one-sixth its former proportions.

"In the Crimean War the Turks successfully defended the fortress against Alexander's armies, but in 1877 it was finally evacuated and the following year was ceded to Bulgaria, in whose possession it remained until August, 1913, when, by the terms of the treaty of Bucharest, it became the property of the Rumanians.

(The Modern Beauty) Here is how any woman can easily and quickly remove objectionable hairy growth without pain or injury to the skin. Make a paste with some powdered talcum and water, apply to hairy surface and after 1 or 2 minutes rub off, wash the skin and the hairs are gone. This is a valuable, inexpensive method and, excepting where the growth is unusually thick, a single application is enough. You should, however, be careful to keep the skin moist.—ADV.

# MAN AND WOMAN CHARGED WITH KILLING HER HUSBAND

Arrested in Denver for Crime Committed When They Were Driving Through Kansas in Wagon.

DENVER, Colo., Nov. 9.—Edward Turner, 31, and Mrs. Evelyn Bushong are held in jail here to await the arrival of Sheriff Story of Ellsworth, Kan., who is expected here today to take the couple back to Kansas to answer a charge of killing R. M. Bushong, husband of Mrs. Bushong, near Ellsworth, on the night of Oct. 31. Turner is said to have confessed that he killed Bushong while riding in a light wagon with Bushong and his wife and two children, after a quarrel between Bushong and his wife.

Turner is said to have told the police he killed Bushong with a hatchet and buried the body beside the road. He and Mrs. Bushong drove to Wilson Kan., abandoned the team there and took a train for Denver. Their arrest resulted from the discovery of blood-stained garments in the wagon at Ellsworth. Turner is said to exonerate Mrs. Bushong of having had any knowledge of his intention to kill Bushong.

# OPERA SINGER ILL, PROGRAM IS CHANGED

Management Calls Upon St. Louisian to Fill Role, Then Decides to Switch Bill.

In the confusion following the discovery that Miss Mary Keastner was too ill with laryngitis to sing the role of Elia in the performance of "Lohengrin" scheduled by the San Carlo Opera Company last night at the Odeon, someone telephoned to Mrs. Blanche Skrainka, St. Louis soprano, asking whether she was prepared to take the part.

In an hour Mrs. Skrainka arrived with costumes and make-up box to volunteer her services, saying she was willing to attempt the role, although she had had no orchestra or dress rehearsal. Impresario Gallo informed her that he had decided to change the bill to "Lucia di Lammermoor."

This incident revealed that during the summer Mrs. Skrainka had coached in the role of Elia in the anticipation of singing it with the San Carlo Company, that she had gone to the pains of rehearsing it in Italian after memorizing it in German, and that she had costumes prepared for her debut. At the last moment, however, she was told that she would be scheduled to sing the part of Leonora in "Il Trovatore" at St. Louis's matinee. It developed that the troupe's management never had planned from the beginning to have her sing Elia, although, to appease friends of hers who were exerting pressure in her behalf, she was announced for the part in the advance notices until a few days before the engagement opened.

The promise of the company's first essay in German opera drew a large crowd, the Liederkreis Club being sponsor for the evening. Much disappointment was expressed, but only a few took advantage of the company's offer to refund their money. An interesting performance of "Lucia" was given, with Manuel Salazar, Angelo Antola, Edvige Vaccari, Natale Cervi and Luciano Rosini in the cast.

## SOCIETY

THE marriage of Miss Emma Jane Taylor, daughter of former Judge and Mrs. Daniel G. Taylor, and Edward Gillette Hotchkiss, formerly of New York, which will take place this afternoon at 5 o'clock at the Taylor residence, 4907 Berlin avenue, will be one of the most important nuptial events of the season.

Since her debut in 1912, when she was chosen Queen by the Velled Prophet, Miss Taylor has been one of the most popular girls in society. No entertainment, whether given for a dowager or debutante, was complete without her, and the presents are said to be the handsomest received by a bride for a long time. There are more than 250 and they include a chest of silver from the bridegroom's parents, dozen of plates of all sizes, crystal and silver and everything one can think of.

The ceremony will be performed by the Rev. Father Francis Gillilan of the Cathedral parish and Archbishop Glennon will bless the bride.

The bride will wear a gown of white satin, veiled with tulle—exceedingly simple—with a girle of orange blossoms to mark the waist line. The train will be of tulle, with some beautiful old rose point lace showing through and her veil will be worn without any kind of fancy arrangement, just put over her head and held with a few orange blossoms. She will carry lilies of the valley.

Miss Grace Taylor, the bride's sister, will be her only bridesmaid, and little Miss Agnes Benoit, Mr. and Mrs. Howard A. Benoit's daughter, and Miss Marie Church Tiffany, the daughter of Mr. and Mrs. George S. Tiffany, will be flower girls.

The bride's gown will be of cloth of gold, trimmed with gold lace, and she will carry brown orchids.

The bride is the granddaughter of the late Mr. and Mrs. George P. Whitelaw, and through her father is descended from some of the pioneer French families. Her mother, who was Miss Emma Whitelaw, was a belle as a girl and is one of the leaders of the younger married set.

Mr. Hotchkiss is the son of Mr. and Mrs. Franklin Hotchkiss of New York and a member of the old New York family of that name. He is a graduate of Yale in the class of 1912 and came here several years ago. His parents and his sister, Mrs. Hamlin Andrus, and two brothers, Frederick Hotchkiss, who will be best man, and a younger brother, Andrew Hotchkiss, are here for the wedding.

The drawing room where the ceremony will take place will be decorated with white blossoms. There will be an improvised altar flanked by cathedral candles. Twelve men friends of the bride and bridegroom will hold the ribbons to mark the aisle for the bride to pass through. They will be Messrs. Ir A. Stevens, Andrew H. McCreery, Oliver Anderson, John S. Lionberger, George P. Whitelaw, Andrew Hotchkiss, Hayward Niedringhaus, Pelham Turner, J. Brooke Knight, Thomas R. Rayburn and Wessel Shapleigh.

When Mr. Hotchkiss and his bride return from their honeymoon trip they will be at home in the Maryland Apartments at Newstead and Maryland avenues.

Mr. Jacob Mahler's Special Ladies' Class in Dancing opens Friday Morning.

Miss Marion Bond, daughter of Judge and Mrs. Henry W. Bond of the Aberdeen Apartments, will depart next week for New York for a visit and to be present at the dance to be given by George T. Brokaw at Sherry's. She will stay until Thanksgiving.

Miss Leonore Cahill, daughter of Mr. and Mrs. James H. Cahill of 4475 Lindell boulevard, is going East for the Army and Navy football game at Philadelphia

and also will visit her sister, Mrs. Sullivan in Providence, R. I.

Mrs. James Moore's Ball of 4774 Washington boulevard has returned after an

absence of four months in the East. Her daughter, Miss Josephine Ball, will remain until after Thanksgiving. They have been making a round of visits in Pittsburgh and New York.

Daily Short Story

## Cha ity

By H. Baranoff.

In the end they put Marya on the case. Had she not been an American, the Russian police would have arrested the suspected woman long before. But one had to be careful with those Americans. So when the repeated police raids on her house revealed no revolutionary literature they appealed to Marya, the human bloodhound of the Government. If anything was to be found Marya would find it.

Getting into Mrs. Manning's house, the American's house was a simple matter. A black night, a hurried ring of the bell, a plea to be hidden from the police for the night, and Marya, pale and wild-eyed, as befitting a refugee, was in the house. Silently Mrs. Manning led the supposed revolutionist into her sitting room.

In a chair near the fireplace, her face fearful and distorted by pain, was a little girl of 6. At the moment neither woman noticed her, but sat tensely waiting for the bell to announce the police. When nothing happened Marya spoke. "I was selfish to thus imperil you. Forgive me."

Her "feeler" failed. Mrs. Manning offered no reply. Another period of silence ensued, this time to be broken by a sob from the child.

Instantly Mrs. Manning was at her side. "My little girl, Alice," she explained to Marya in excellent Russian. "She has a horrible toothache. I was about to fetch some toothdrops when you came. I'll get them now."

She was hardly gone than Marya was examining the room. Keenly and surely she went over every article but, as she had expected, found nothing. She was about to follow Mrs. Manning when a "Can't you these things awful tooth?" she pleaded.

The appeal was irresistible and Marya for the first time in her career neglected the call of duty. Taking Alice in her arms, she seated herself near the fire and began massaging the troublesome cheek. The distraction of the deed of kindness held her and the precious minutes fled unheeded.

Meanwhile, upstairs in her bedroom, Mrs. Manning was racking her brains for a way to get rid of the one book she had ever neglected to destroy after reading. The discovery of this book by the police would be her conviction, exile, perhaps death. And here she was with no hiding place, the only fire in the sitting room and a possible spy downstairs. In despair she paced the floor. Suddenly her wandering eyes fell upon Alice's large "Mother Goose" book. Seizing it, she tore the contents clear of its cover, into which she tucked the forbidden book. The mutilated pages she stuffed carefully into the toy box. Then, vastly relieved, she went for the toothdrops.

The sight of her child free from pain and the arms of the stranger added to her relief. She almost regretted her suspicions, and upon retiring sought to show confidence by leaving her door open.

Nevertheless she was wide awake when two hours later Marya, by the light of an electric lamp, entered the room. Fascinated by the sight of the swift, skilful, thorough movements, her sigh of relief was almost audible when Marya passed by the toy box and the book on the floor. And she fell asleep out of sheer nervous exhaustion when Marya finally went.

Next morning every one was up early. An admirable hostess, Mrs. Manning expressed regret at Marya's going. Little Alice almost wept.

"Pleath, pleath, thitay," she begged. Her pleading futile, she sought a compromise.

"Will you these again if I give you thombth'n' nith?" she asked.

Anxious to be gone, Marya nodded absently, and the child fled to return shortly with the "Mother Goose" book. Mrs. Manning barely repressed a scream. Her face was ghastly as she watched Marya pass down the street with her site in the book under her arm.

Marya was furious. The American had stolen her book. There was no doubt of her being a revolutionist, but this conquest had won her security for the rest of her stay in Russia. Not until she reached her room and was removing her wraps did she remember the book. The sight of it recalled more vividly her utter failure. Her weakness had done this.

So this was the reward of kindness—a book, a mere plaything. With an oath against the God of Charity, she hurried

## Nardo and the Bird.

ONCE upon a time a hunter named Nardo was hunting birds in the woods, and just as he was about to fire a shot at a pretty bird sitting on a limb of a tree, to his surprise, the bird spoke to him.

"Good hunter Nardo," it said, "pray spare me. I have five little ones in a nest in this tree and if you will promise not to harm us I will teach them to always remember your kindness to me, and also will help you if ever you are in trouble."

Nardo, the hunter, laughed when he heard this. "Why, how can such a little creature as you help me?" he asked.

"That I cannot tell you, good hunter," said the bird, "but small creatures have before this helped human ones. Spare me, I pray you."

"Very well, I will grant your wish," said Nardo, "but I will release you now, for I know you will never be able to repay my help."

"Good back to her little ones," Nardo went on through the

woods looking for game. The little birds grew up and their mother pointed out Nardo, the hunter, to them every day, for she flew all about the woods wherever the hunter went.

"Always do him a kindness if you can," the mother bird told the little ones. "He spared my life when you were too small to care for yourselves. He may need help some day; see that you are there to give it."

The mother bird grew old and died, but the young birds followed Nardo wherever he went, and one day he went a long distance from their woods into a forest where there were wild beasts.

Nardo hunted all day, but not a chance did he get to shoot a lion or a tiger, and when night came he found a place back of a big rock where he was sheltered, and went to sleep.

In the morning when he awoke he was frightened as his hair stood straight, for looking at him from the top of the rock was a lion. Nardo did not dare to move his hands to get his gun, which was a little distance from him, and the

lion, with his eyes fixed upon poor Nardo, came down from the rock and stood close beside him.

Angling his tail and showing his teeth, the lion still gazed at Nardo, who thought every minute would be his last, and finally the lion put his front paws on Nardo's chest.

Just as he did this Nardo saw a bird flying toward them with a twig held in its bill.

Closer and closer it came until it was right over the head of the lion, and with the twig swinging from its bill it tickled the nose of the fierce lion until he had to jump away from Nardo to scratch his nose.

Quick as a thought Nardo reached for his gun and before the lion could again attack him Nardo shot him and over rolled the beast at his feet.

Then Nardo looked for the bird that had saved his life and on a limb of a tree over his head he saw it.

"You are a very little creature, but you saved my life that time," said Nardo.

"You saved mine many years ago by sparing my mother's life," answered the bird, "and we have never forgotten it."

And away it flew, leaving Nardo to think over what the old mother bird had said long before, that little creatures were often able to help the big ones, and Nardo knew she was right.

"I'll never again harm the birds," he said, nor will I despise those who are smaller than I am, for sometimes wisdom is contained in small bodies while the big ones may have very little." (Copyright, 1914, by the McClure Newspaper Syndicate, New York City.)

## Acme of Tact.

A LADY in the suburbs was considerably annoyed to find her neighbor's fowls continually overrunning her garden and playing havoc with the vegetables. "Go round to the next door, Jane," she said to her new English maid, "and point out to Mrs. Jones that her fowls bother us a good deal, and ask if she'll kindly try to keep them at home."

The girl returned with a satisfied look on her face. "I don't fancy we shall 'ave 'em round 'ere again in a 'urry, ma'am," she replied.

"I hope you were polite, Jane," remarked her mistress.

"Oh, yes, ma'am," came the reply. "Missus' respects. I was, and if your fowls ain't kept at 'ome you won't be gettin' no many eggs of a mornin', and we shall be eatin' poultry?"

## Didn't Like Them.

A SCHOOL inspector, testing a class in fractions, asked a boy whether, given his choice, he would prefer one-sixth or one-seventh of an orange.

The boy promptly replied that he would prefer one-seventh. The inspector more promptly explained that such action would be foolish, because, though the suggested fraction might seem the larger, just the reverse was true.

"I know, sir," said the boy, "that's why I chose it. I don't like oranges."

## Probable.

FORTUNE-TELLER: You are going to hear of a death.  
JONES: No doubt at supper! My wife is at the movies this afternoon.

## Genuine.

THE hard-working fancy dealer had vainly ransacked the whole of his shop in his efforts to please an old lady, who wanted to purchase a present for her granddaughter. For the fifteenth time she picked up and critically examined a neat little hatchet.

"Are you quite sure that this is a genuine alligator skin?" she inquired.

"Positive, madam," quoth the dealer. "I shot the alligator myself."

"It looks rather soiled," said the lady. "That, madam, is where it struck the ground when it fell off the tree."

## Neighborly.

PAPA, the little boy next door says his father wants to know if he can use our lawn mower for a little while."

"You may tell the little boy, Hobbie, to tell his father that we shall be glad to let him use our mower whenever he likes, but be sure to tell him that he mustn't take it out of our yard."

## She Had a Man.

THE new minister was shaking hands with a new member of his congregation, a girl fresh from Sweden, and, said, cordially: "I would like to know your address, so I can call on you."

"Oh," said the girl innocently, "I had a man."

## Considerate.

A big, strong man like you ought to be ashamed to beg. Why don't you work for a living?"

"It's this way, lady. I don't feel as if it would be right for me to do some other man out of a job as long as I can get along without it."

"Positive, madam," quoth the dealer. "I shot the alligator myself."

"It looks rather soiled," said the lady. "That, madam, is where it struck the ground when it fell off the tree."

"You may tell the little boy, Hobbie, to tell his father that we shall be glad to let him use our mower whenever he likes, but be sure to tell him that he mustn't take it out of our yard."
